DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Environmental Impact Statement: Prince George's County, Maryland**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed multi-modal project in Prince George's County, Maryland.

FOR FURTHER INFORMATION CONTACT: Ms. Renee Sigel, Planning, Research, and Environment Team Leader, Federal Highway Administration, The Rotunda Suite 220, 711 West 40th Street, Baltimore, Maryland 21211, Telephone: (410) 962-4440.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Maryland State Highway Administration, will prepare a first tier

environmental impact statement (EIS) on proposed corridors and transportation modes to improve US 301 through Prince George's County. The proposed corridor extends from the MD 5 interchange at T.B. to US 50 (approximately 21.3 miles/34.3 km).

Existing and projected growth in population and development is creating traffic congestion in southern Maryland along existing US 301 between US 50 and MD 5. The local roadway network will reach capacity and will be unable to accommodate this increased travel demand. Improvements within the corridor will address safety problems and accommodate existing and projected travel demand.

The corridor to be studied in the first tier EIS includes and is adjacent to existing US 301. The modes include: fully controlled access highway, transportation systems management (TSM), and bus service.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, local agencies, private organizations, and citizens who have previously expressed or are known to have an interest in this project. A Public Hearing is tentatively scheduled for the Fall of 1997. The Draft EIS will be available for public and agency review and comment prior to a Public Hearing. Public notice will be given of the availability of the Draft EIS for review and of the time and place of this hearing.

Project scoping was initiated through formation of the US 301 Task Force, which included representatives of Federal, State and Local governments, elected officials, local area civic, environmental and business leaders, and concerned citizens. A series of Task Force Information Workshops and Public Hearings were held on June 17, June 19, and July 9, 1996, in Bowie, Waldorf and Upper Marlboro, respectively. At the meetings, the history and the goals of the US 301 Task Force were reviewed. The Task Force's preliminary recommendations were presented and consisted of the integration of new local land use policies, transportation demand strategies, transit options, and highway improvements.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning these proposed actions and EIS should be directed to the FHWA at the address provided above.

Planning, Research and Environment Team Leader, Baltimore, Maryland.
