

Granite State is seeking approval of a specific site in Wells, Maine to store LNG that would be transported by tanker trucks from Everett, Massachusetts. The LNG would be vaporized as needed and the natural gas delivered into Granite State's existing pipeline system or the Portland Natural Gas Transmission System. The proposed action involves construction of:

- A 580,000-barrel LNG storage tank (equivalent to 2 billion cubic feet of natural gas);
- Two truck unloading stations;
- Two 67 million cubic feet per day vaporizers;
- A vapor handling system;
- A 12-inch-diameter sendout pipeline; and
- A new 1.4-mile-long permanent access road to the storage facility site from State Route 9.

In addition, Granite State proposes to upgrade and temporarily use an existing 1.1-mile-long dirt road for access into the storage facility site during the initial stages of construction.

The purpose of the proposed facilities would be to provide a 134,000 million British thermal units per day peak shaving service.

The FEIS has been placed in the public files of the FERC and is available for public inspection at:

Federal Energy Regulatory Commission,  
Public Reference and Files  
Maintenance Branch, 888 First Street,  
N.E., Room 2A, Washington, DC  
20426, (202) 208-1371

and

Town Manager's Office, Town Hall,  
Wells, ME 04090, (207) 646-5113.

Copies of the FEIS have been mailed to Federal, state and local agencies; public interest groups; interested individuals; newspapers; and parties to this proceeding. A limited number of copies of the FEIS are available from the Public Reference and Files Maintenance Branch identified above.

Additional information about the proposed project is available from Paul

McKee in the Commission's Office of External Affairs at (202) 202-1888.

### Federal Energy Regulatory Commission

**Project No. 11393-001 Alaska]**

#### City of Saxman; Notice of Availability of Draft Environmental Assessment

July 14, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for an original license for the major, unconstructed, Mahoney Lake Hydroelectric Project. The project would be located on Upper Mahoney Lake and Upper Mahoney Creek near Ketchikan in Southeast Alaska. The Commission staff has prepared a Draft Environmental Assessment (DEA) on the project. The DEA contains the staff's analysis of the potential environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Any comments should be filed within 30 days from the date of this notice and should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. For further information, contact Vince Yearick,

Environmental Coordinator, at (202) 219-3073.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-5860-5]

**Agency Information Collection Activities: Submission for OMB Review; Comment Request; Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that the following Information Collection

Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79) (OMB Control Number 2060-0150, expiration date: 9-30-97). The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before August 18, 1997.

**FOR FURTHER INFORMATION OR A COPY CALL:** Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 309.09.

**SUPPLEMENTARY INFORMATION:**

*Title:* Registration of Fuels and Fuel Additives (OMB Control No. 2060-0150; EPA ICR No. 309.09) expiring 9/30/97.

This is a request for an extension of a currently approved collection.

*Abstract:* Manufacturers of gasoline, diesel fuel, and additives for gasoline and/or diesel fuel, are required to have these products registered by the EPA prior to their introduction into commerce. Registration involves providing a chemical description of the fuel or additive, certain technical and marketing information, and any health-effects information in possession of the manufacturer. The development of health-effects data, required by 40 CFR 79, subpart F, is not included in this ICR due to upcoming changes in the requirements. Manufacturers are also required to submit periodic reports (annually for additives, quarterly and annually for fuels) on production volume and related information. The information is used to identify products whose evaporative or combustion emissions may pose an unreasonable risk to public health. Manufacturers typically claim confidentiality for compositional and production information. In accordance with the Clean Air Act, the results of health-effects testing shall not be considered confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 14, 1997 (62 FR 18114); two comments were received.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is

estimated to average six hours per each notification/supplemental notification response, one hour for each notification update response, and one hour for each periodic report. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Manufacturers of gasoline, diesel fuel, and fuel additives.

*Estimated number of Respondents:* 1,400.

*Frequency of Response:* On occasion, quarterly, annually.

*Estimated Total Annual Hour Burden:* 12,900.

*Estimated Total Annualized Cost Burden:* \$722,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques, to the following addresses. Please refer to EPA ICR No. 309.09 and OMB Control No. 2060-0150 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: July 14, 1997.
