

Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Registration of Fuels and Fuel Additives: Requirements for Manufacturers (40 CFR 79) (OMB Control Number 2060-0150, expiration date: 9-30-97). The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before August 18, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 309.09.

SUPPLEMENTARY INFORMATION:

Title: Registration of Fuels and Fuel Additives (OMB Control No. 2060-0150; EPA ICR No. 309.09) expiring 9/30/97.

This is a request for an extension of a currently approved collection.

Abstract: Manufacturers of gasoline, diesel fuel, and additives for gasoline and/or diesel fuel, are required to have these products registered by the EPA prior to their introduction into commerce. Registration involves providing a chemical description of the fuel or additive, certain technical and marketing information, and any health-effects information in possession of the manufacturer. The development of health-effects data, required by 40 CFR 79, subpart F, is not included in this ICR due to upcoming changes in the requirements. Manufacturers are also required to submit periodic reports (annually for additives, quarterly and annually for fuels) on production volume and related information. The information is used to identify products whose evaporative or combustion emissions may pose an unreasonable risk to public health. Manufacturers typically claim confidentiality for compositional and production information. In accordance with the Clean Air Act, the results of health-effects testing shall not be considered confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 14, 1997 (62 FR 18114); two comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is

estimated to average six hours per each notification/supplemental notification response, one hour for each notification update response, and one hour for each periodic report. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of gasoline, diesel fuel, and fuel additives.

Estimated number of Respondents: 1,400.

Frequency of Response: On occasion, quarterly, annually.

Estimated Total Annual Hour Burden: 12,900.

Estimated Total Annualized Cost Burden: \$722,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques, to the following addresses. Please refer to EPA ICR No. 309.09 and OMB Control No. 2060-0150 in any correspondence.
