POLICY JUSTIFICATIONThailand - M16A2 5.56mm Rifles

The Government of Thailand has requested the purchase of 37,500 M16A2 rifles, 4,700 M4 carbines, 2,600 M203 grenade launchers, bayonets, shop sets and repair kits for small arms, spare and repair parts, and other related elements of logistics support. The estimated cost is \$40 million.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in Southeast Asia.

These rifles will augment and modernize Thailand's present M16 rifles, and the Thai Armed Forces will have no difficulty absorbing these additional small arms.

The sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Fabrique Nationale, Columbia, South Carolina. There are no offset agreements proposed to be entered into in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Thailand.

There will no adverse impact on U.S. defense readiness as a result of this sale.
