#### SUPPLEMENTARY INFORMATION:

*Title:* Visitor Services Project Visitor Surveys at 16 Parks.

*Bureau Form Number:* None.

*OMB Number:* To be requested.

*Expiration date:* To be requested.

*Type of request:* Request for new clearance.

*Description of need:* The National Park Service needs information concerning visitor demographics and

visitor opinions about the services and facilities that the National Park Service provides in each of the parks proposed to be surveyed. The proposed information to be collected from visitors in these parks is not available from existing records, sources, or observations.

*Automated data collection:* At the present time, there is no automated way to gather this information, since it includes asking visitors to evaluate services and facilities that they used during their park visit. The intrusion on visitors in each park is minimized by only contacting visitors during one 7 day period at that park.

*Description of Respondents:* A sample of visitors to each of these parks.

*Estimated average number of respondents:* The number depends on the size of the park being surveyed and is estimated to range from 400 to 800 respondents per park.

*Estimated average number of responses:* Each respondent will

respond only one time, so the number of responses will be the same as the number of respondents.

*Estimated average burden hours per response:* 12 minutes.

*Frequency of response:* 1 time per respondent.

*Estimated annual reporting burden:* The number depends on the size of the park being surveyed and is estimated to range from 80 to 160 hours per park.
