

Document Mail Center (DMC). Modifications which affect the intended use or alter the basic fundamental scientific technology of the device are not appropriate for review under this type of application, but rather they should continue to be subject to routine 510(k) procedures or may be subject to an "Abbreviated 510(k)" as described in section I.B of this document.

B. Abbreviated 510(k)

The SMDA introduced the concept of special controls as the means by which the safety and effectiveness of Class II devices can be ensured. Special controls are defined by statute as those controls that provide reasonable assurance of the device's safety and effectiveness. Recently, considerable effort has been expended to develop the concept of a "special control guidance document" (SCGD). Under this initiative, reasonably foreseeable risks that are associated with a type of Class II device would be identified in a SCGD. For each risk, the agency would also identify a special control(s) such as a consensus standard, labeling content, or postmarket surveillance that would address the risk.

In addition to SCGD's that would be developed for generic Class II devices, CDRH is committed to recognizing individual consensus standards. The consensus standards could be cited in SCGD's, recognized in individual policy statements, or identified as "special controls" that address specific risks associated with multiple device types. IEC 60601 is an example of such a consensus standard. It has broad applicability to many electromedical devices. FDA's recognition of this standard, combined with modified review procedures, could streamline the review of many 510(k)'s for devices covered by the standard. Finally, by using the accompanying particular standards to adapt the general standard to specific devices, the 510(k) review process may be further expedited.

Under the draft paradigm, device manufacturers could choose to submit "Abbreviated 510(k)'s" for Class II devices when a SCGD exists or when FDA has recognized an individual special control such as a relevant standard. The incentive for manufacturers to elect to use special controls or to declare conformance to recognized standards would be a more expedient review of their submissions.

II. Electronic Access

In order to receive "A New 510(k) Paradigm—Alternate Approaches to Demonstrating Substantial Equivalence in Premarket Notifications" document

via your fax machine, call the CDRH Facts-On-Demand (FOD) system at 800-899-0381 or 301-827-0111 from a touch-tone telephone. At the first voice prompt press 1 to access DSMA Facts, at second voice prompt press 2, and then enter the document number (905) followed by the pound sign (#). Then follow the remaining voice prompts to complete your request.

Persons interested in obtaining a copy of the paradigm may also do so by using the World Wide Web (WWW). CDRH maintains an entry on the WWW for easy access to information including text, graphics, and files that may be downloaded to a personal computer with access to the Web. The CDRH home page, which is updated on a regular basis, includes: The draft document entitled "A New 510(k) Paradigm—Alternate Approaches to Demonstrating Substantial Equivalence in Premarket Notifications," device safety alerts, **Federal Register** reprints, information on premarket submissions (including lists of approved applications and manufacturers' addresses), small manufacturers' assistance, information on video conferencing and electronic submissions, mammography matters, and other device-oriented information. The CDRH home page may be accessed at <http://www.fda.gov/cdrh>. The paradigm will be available at <http://www.fda.gov/cdrh/ode/parad510.html>.

A text-only version of the CDRH Web site is also available from a computer or VT-100 compatible terminal by dialing 800-222-0185 (terminal settings are 8/1/N). Once the modem answers, press Enter several times and then select menu choice 1: FDA BULLETIN BOARD SERVICE. From there follow instructions for logging in, and at the BBS TOPICS PAGE, arrow down to the FDA home page (do not select the first CDRH entry). Then select Medical Devices and Radiological Health. From there select CENTER FOR DEVICES AND RADIOLOGICAL HEALTH for general information, or arrow down for specific topics.

III. Comments

Interested persons may, submit to the Dockets Management Branch (address above) written comments regarding this paradigm by November 18, 1997. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments and requests for copies are to be identified with the docket number found in brackets in the heading of this document. The paradigm and received comments may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 9, 1997.

D.B. Burlington,

Director, Center for Devices and Radiological Health.

BILLING CODE 4160-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Diabetes and Digestive and Kidney Diseases; Notice of Closed Meeting

Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following National Institute of Diabetes and Digestive and Kidney Diseases Special Emphasis Panel meeting:

Name of SEP: HLA Genotyping.

Date: October 8, 1997.

Time: 3:00 p.m.

Contact Person: William Elzinga, Ph.D., Scientific Review Administrator, Review Branch, NIDDK, Natcher Building, Room 6as-37A, National Institutes of Health, Bethesda, Maryland 20892-6600, Phone: (301) 594-8895.

Purpose/Agenda: To review and evaluate grant applications.

This meeting will be closed in accordance with the provisions set forth in secs. 552b(c)(4) and 552b(c)(6), Title 5 U.S.C. Applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy. (Catalog of Federal Domestic Assistance Program No. 93.847-849, Diabetes, Endocrine and Metabolic Diseases; Digestive Diseases and Nutrition; and Kidney Diseases, Urology and Hematology Research, National Institutes of Health)

Dated: September 12, 1997.

LaVerne Y. Stringfield,

Committee Management Officer, NIH.

Division of Research Grants; Notice of Closed Meetings

Pursuant to Section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following

meetings that are being held to review grant applications:

BIOBEHAVIORAL AND SOCIAL SCIENCES INITIAL REVIEW GROUP

Study section/contact person	October–November 1997 meetings	Time	Location
Human Development and Aging-1, Dr. Anita Miller Sostek, 301-435-1260.	Oct. 23–24	9:00 a.m.	Embassy Suites Hotel, Chevy Chase Pavilion, Washington, DC.
Human Development and Aging-3, Dr. Anita Miller Sostek, 301-435-1260.	Nov. 6–7	9:00 a.m.	Embassy Suites Hotel, Chevy Chase Pavilion, Washington, DC.

The meetings will be closed in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5, U.S.C. Applications and/or proposals and the discussions could reveal confidential trade secrets or commercial property such as patentable material and personal information concerning individuals associated with the applications and/or proposals, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

BILLING CODE 4140-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Prospective Grant of Limited Exclusive License: Monoclonal Antibodies to Thymidylate Synthase

AGENCY: National Institutes of Health, Public Health Service, HHS.

ACTION: Notice.

SUMMARY: This notice in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(I) that the National Institutes of Health, Department of Health and Human Services, is contemplating the grant of an exclusive worldwide license to practice the inventions embodied in the U.S. Patent Application SN 07/690,841 filed 04/24/91, entitled "Monoclonal Antibodies to Thymidylate Synthase" to Oncotech, Inc. of Irvine, CA. The patent rights in this invention have been assigned to the United States of America.

The prospective exclusive license field of use may be limited to the *in vitro* diagnosis of elevated Thymidylate

Synthase for the treatment of cancer in humans.

DATES: Only written comments and/or applications for a license which are received by NIH on or before November 18, 1997 will be considered.

ADDRESSES: Requests for copies of the patent application, inquiries, comments and other materials relating to the contemplated licenses should be directed to: Joseph G. Contrera, M.S., J.D., Technology Licensing Specialist, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, Maryland 20852-3804; Telephone: (301) 496-7056 ext. 244; Facsimile: (301) 402-0220. A signed Confidentiality Agreement will be required to receive copies of the patent application.

SUPPLEMENTARY INFORMATION: The invention relates to monoclonal antibody (MoAb) technology. The technology provides improved sensitivity and specificity that is necessary to overcome the problems of traditional biochemical assays. The present invention provides for the immunological detection and quantitation of thymidylate synthase (TS) through a series of hybridoma cell lines that produce MoAbs specific for antigenic determinants on TS. TS plays a critical role in DNA nucleotide precursor synthesis, and thus, an important therapeutic target for the fluoropyrimidine class of antineoplastic agents.

In sum, this invention allows for the immunological detection and quantitation of TS in human cells and enables the immuno-histochemical localization of TS in human colon carcinomas.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless within sixty (60) days from the date of this published notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the

requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act, 5 U.S.C. 552.

Dated: September 10, 1997.

Barbara M. McGarey,

Deputy Director, Office of Technology Transfer.

BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4235-N-21]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Mark Johnston, room 7256, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708-1226; TDD number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this notice to identify Federal buildings
