Agency Information Collection Activities Under OMB Review; Standards of Performance for New Stationary Sources Ammonium Sulfate Manufacturing Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance for New Stationary Sources —Ammonium Sulfate Manufacturing Plants— NSPS Subpart PP (OMB# 2060–0032). The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 23, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260–2740, and refer to EPA ICR No.1066.02

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Ammonium Sulfate Manufacturing Plants (OMB Control No. 2060–0032;

EPA ICR No 1066.02). This is a request for reinstatement without change of a previously approved collection for which approval has expired.

Abstract: The Administrator has judged that PM emissions from ammonium sulfate manufacturing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of ammonium sulfate manufacturing plants must make the following onetime-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; and the notification of the date of the initial performance test. The recordkeeping requirements for ammonium sulfate plants consist of the occurrence and duration of all start-ups and malfunctions, the initial performance tests results, amount of ammonium sulfate feed material, and the pressure drop across the emission control system. Records of startups, shutdowns and malfunctions shall be noted as they occur. Records of the performance test should include information necessary to determine the conditions of the performance test, and performance test measurements (including pressure drop across the emission control system) and results. The continuous monitoring system (CMS) shall record pressure drop across the scrubbers continuously and automatically.

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 5, 1997. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 91.2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Ammonium sulfate manufacturing facilities.

Estimated Number of Respondents: 2. Frequency of Response: 1. Estimated Number of Responses: 2. Estimated Total Annual Hour Burden: 182 hours.

Estimated Total Annualized Cost Burden: 0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1066.02 and OMB Control No. 2060–0032 in any correspondence.

Industrial Non-Hazardous Waste Policy Dialogue Committee; Notice of Charter Renewal

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of charter renewal.

The Charter for the Environmental Protection Agency's (EPA) Industrial Non-Hazardous Waste Policy Dialogue Committee will be renewed for an additional two-year period, as a necessary committee which is in the public interest, in accordance with the provisions of the Federal Advisory Committee Act of (FACA), 5 U.S.C. appl.2 section 9(c). The purpose of INHWPDC is to provide advice and counsel to the EPA on issues associated with management and disposal guidelines for industrial, non-hazardous waste under the Resource Conservation and Recovery Act. It is determined that INHWPDC is in the public interest in connection with the performance of duties imposed on the Agency by law.

Inquiries may be directed to Deborah Dalton, Designated Federal Officer, NACEPT, U.S. EPA, Deputy Director, Consensus and Dispute Resolution Program (mail code 2136), 401 M Street, SW, Washington, DC 20460.

Dated: September 17, 1997.

Deborah Dalton,

Designated Federal Officer. [FR Doc. 97–25222 Filed 9–22–97; 8:45 am] BILLING CODE 6560–50–M

San Gabriel Valley Superfund Sites Notice of Proposed Administrative Settlement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA"), 42 U.S.C. 9600 et seq., notice is hereby given that on August 16, 1997 the United States **Environmental Protection Agency** ("EPA") and the United States Department of Justice ("DOJ") executed a proposed Prospective Purchaser Agreement pertaining to a property transaction within the San Gabriel Valley Superfund Sites. The proposed Prospective Purchaser Agreement would resolve certain potential claims of the United States under sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, and section 7003 of the Solid Waste Disposal Act, as amended, 42

U.S.C. 6973, against Ekstrom Properties and Cardinal Industrial Finishes (the "Purchasers"). The Purchasers plan to acquire an eleven acre parcel located within the Puente Valley Operable Unit of the San Gabriel Valley Superfund Sites near Los Angeles, California for the purposes of developing and operating a powder coating manufacturing facility. The proposed settlement would require the Purchasers to make a one-time payment of \$150,000, which would be placed into a special account for response actions in the Puente Valley Operable Unit.

For thirty (30) calendar days following the date of publication of this document, EPA will receive written comments relating to this proposed settlement. If requested prior to the expiration of this public comment period, EPA will provide an opportunity for a public meeting in the affected area. EPA's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105.

DATES: Comments must be submitted on or before October 23, 1997.

AVAILABILITY: The proposed Prospective Purchaser Agreement and additional background documentation relating to the settlement are available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA, 94105. A copy of the proposed settlement may also be obtained from Brett Moffatt, Assistant Regional Counsel (ORC-3), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA, 94105. Comments should reference "Cardinal Industrial Finishes—Puente Valley Operable Unit, San Gabriel Valley Superfund Sites" and "Docket No. 97-12" and should be addressed to Brett Moffatt at the above address.

FOR FURTHER INFORMATION CONTACT:

Brett Moffatt, Assistant Regional Counsel (ORC–3), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA, 94105; E-mail:

moffatt.brett@epamail.epa.gov; Phone: (415) 744–1374.

Keith Takata,

Director, Superfund Division, U.S. EPA, Region IX.
