**SUPPLEMENTARY INFORMATION:**

*OMB Approval Number:* 3060-0625.

*Title:* Section 24.237, Amendment of the Commission's Rules to Establish New Personal Communications Services (Interference Protection).

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Individuals or households; business or other for-profit; not-for-profit institutions; and state, local or tribal government.

*Number of Respondents:* 100.

*Estimated Time Per Response:* 2 hours.

*Cost to Respondents:* N/A.

*Total Annual Burden:* 200 hours.

*Needs and Uses:* Section 24.237 requires that the results of the coordination process between incumbent microwave users and PCS licensees be reported to the Commission only if the parties fail to agree. Additionally, the Commission requires that each broadband PCS licensee perform an engineering analysis to assure that the proposed facilities will not cause interference to existing OFS stations within the specified coordination distance of a magnitude greater than a specified criteria, unless there is prior agreement with the affected OFS licensee. This collection is being revised because the requirement in Section 24.204 was eliminated and removed from the Commission's rules.

*OMB Approval Number:* 3060-0727.

*Title:* Section 73.213, Grandfathered Short-Spaced FM Stations.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit.

*Number of Respondents:* 15.

*Estimated Time Per Response:* 5 hours per showing (0.5 hours consultation time/4.5 hours contracting time).

*Cost to Respondents:* \$8,493. We assume that the applicant would use a

consulting engineer (\$125/hour) to complete the interference showing. We estimate that copying of the application would be approximately \$0.10/page and that each application would have an average of 25 pages. We also estimate that the postage for the mailing of an application would be \$1.24/application.

*Total Annual Burden:* 200 hours.

*Needs and Uses:* On 8/4/97, the Commission adopted a Report and Order in MM Docket No. 96-120. The Commission adopted two of the proposals as set forth in the NPRM. The third proposal was adopted as proposed but a disclosure requirement was added that requires that a copy of any application for co-channel or first-adjacent channel stations proposing predicted interference caused in any area where interference is not currently predicted to be caused must be served upon the licensee(s) of the affected short-spaced station(s). These modified procedures will allow grandfathered stations greater flexibility in making transmitter site changes and other facility modifications. The data are used by Commission staff to determine if the public interest will be served and that existing levels of interference will not be increased to other licensed stations. Providing copies of application(s) to affected licensee(s) will enable potentially affected parties to examine the proposals and provide them an opportunity to file informal objections against such applications.

### International Trade Administration

#### University of Georgia; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

**Docket Number:** 96-104R. **Applicant:** University of Georgia, Athens, GA 30602. **Instrument:** Environmental Process Control Laboratory. **Manufacturer:** Minworth Systems Ltd., United Kingdom. **Intended Use:** See notice at 62 FR 41360, August 1, 1997.

**Comments:** None received. **Decision:** Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. **Reasons:** The foreign instrument provides a comprehensive mobile laboratory for monitoring the transport and the biochemical transformation of carbon-, nitrogen- and phosphorus-bearing materials and associated behavior of microbiological organisms in water. A domestic manufacturer of similar equipment advised on June 11, 1997 that: (1) These capabilities are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

## FEDERAL RESERVE SYSTEM

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Board of Governors of the Federal Reserve System  
**ACTION:** Notice

#### Background:

On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act, as per 5 CFR 1320.16, to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320 Appendix A.1. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number. Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. A copy of the OMB 83-I and supporting statement and the approved collection of information instrument will be placed into OMB's public docket files. The following information collection, which is being handled under this delegated authority, has received initial Board approval and is hereby published for comment. At the end of the comment period, the proposed information collection, along with an analysis of comments and recommendations received, will be submitted to the Board for final approval under OMB delegated authority. Comments are invited on the following:

a. Whether the proposed collection of information is necessary for the proper performance of the Federal Reserve's functions; including whether the information has practical utility;

b. The accuracy of the Federal Reserve's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected; and

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Comments must be submitted on or before November 24, 1997.
