SUPPLEMENTARY INFORMATION:

Title: A Proposed Process for OMB Approval of NPS-Sponsored Public Surveys.

Bureau Form Number: None.

OMB Number: To be requested.

Expiration date: To be requested.

Type of request: Request for new clearance.

Description of need: The National Park Service needs information concerning park visitors and visitor services to provide to park managers information for improving the quality and utility to the public of park programs.

Automated data collection: At the present time, there is no automated way to gather this information, since the information gathering process involves asking visitors to evaluate services and facilities that they used during their

park visits. The intrusion on individual visitors is minimized by rigorously designing visitor surveys to maximize the ability of the surveys to use small samples of visitors to represent large populations of visitors and by coordinating a program of surveys to maximize the ability of new surveys to build on the findings of prior surveys.

Description of Respondents: A sample of visitors to parks or of people who have relationships to parks.

Estimated average number of respondents: The proposal does not identify the number of respondents because that number will differ from individual survey to individual survey, depending on the purpose and design of each individual survey.

Estimated average number of responses: The proposal does not identify the average number of responses because that number will differ from individual survey to individual survey, depending on the purpose and design of each individual survey. For most surveys, each respondent will be asked to respond only one time, so in those cases the number of responses will be the same as the number of respondents.

Estimated average burden hours per response: The proposal does not identify the average burden hours per response because that number will differ from individual survey to individual survey, depending on the purpose and design of each individual survey.

Frequency of response: Most individual surveys will request only 1 response per respondent.

Estimated annual reporting burden: The proposal identifies the requested total number of burden hours annually for all of the surveys to be conducted under its auspices to be 8000 burden hours per year. The total annual burden per survey for most surveys conducted under the auspices of this proposal would be within the range of 100 to 300 hours.

Notice of Boundary Revision, Gulf Islands National Seashore, FL

AGENCY: Department of the Interior, National Park Service.

ACTION: Notice of Boundary Revision, Gulf Islands National Seashore, FL.

SUMMARY: Pub. L. 91-660 (84 Stat. 1967) dated January 8, 1971, authorized the establishment of the Gulf Islands National Seashore. Sections 7(c)(i) and 7(c)(ii) of the Land and Water Conservation Fund Act, as amended by the Act of June 10, 1977 (Pub. L. 95-42, 91 Stat. 210), the Act of March 10, 1980 (Pub. L. 96-203, 94 Stat. 81) and the Act of November 12, 1996 (Pub. L. 104-333, 110 Stat. 4194) further authorized the Secretary to make minor revisions in the boundaries whenever the Secretary of the Interior determines that it is necessary for the preservation, protection, interpretation or management of an area.

Notice is given that the boundary of Gulf Islands National Seashore has been revised pursuant to the above Acts, to encompass lands as depicted on Segment Map 05 of Gulf Islands National Seashore prepared by the National Park Service. The revisions to the boundary are along the western boundary of the Perdido Key, Florida Unit of the Seashore.

This map is on file and available for inspection in the Land Resources Division, Southeast Regional Office, 100 Alabama Street, S.W., Atlanta, Georgia 30303, and in the Offices of the National Park Service, Department of the Interior, Washington, DC 20013-7127.

Dated: September 4, 1997.

Notice of Realty Action; California

Notice of Realty Action for Minor Boundary Revision and Proposed Exchange of Federally-owned land for Privately-owned land in Marin County, California.

In order to resolve the minor and unintentional encroachment of a private residence on Federal land, it is necessary for the National Park Service to effect a minor boundary revision and land exchange at Point Reyes National Seashore. The park boundary will be revised to include a 0.12 acre parcel of land adjacent to the boundary and delete a 0.10 acre parcel of land within the boundary. Upon approval of the boundary revision, the National Park Service will acquire the 0.12 acre parcel and convey the 0.10 acre encroachment parcel to the private landowner. The subject properties are located on Blackberry Lane, Inverness, Marin County, California.

The authority for the minor boundary revision is Section 318 (a) of Public Law 95-625, approved November 10, 1978; 16 U.S.C. 459c-1(a). The authority for the land exchange is Section 3 (a) of Public Law 87-657, approved September 13, 1962, 16 USC 459c-2.

The National Park Service has determined that there will be no adverse impacts as a consequence of the exchange. The value of the lands to be exchanged are of equal value. Each site was surveyed for the presence of hazardous substances and none were found. The mineral rights of both properties will be conveyed.

The land to be conveyed by the United States of America and deleted from the boundary is identified as Tract No. P13-130. Title to the land will be conveyed subject to title encumbrances of record as well as existing easements
