PURPOSE(S):

Information in this system of records will be used for the identification of human remains. The data collected and stored will not be analyzed until needed for the identification of human remains.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

To Federal, state, local and foreign authorities when the Armed Forces Institute of Pathology (AFIP) is requested to identify human remains.

To a proper authority, as compelled by other applicable law, in a case in which **all** of the following conditions are present:

(1) The responsible DoD official has received a proper judicial order or judicial authorization;

(2) The specimen sample is needed for the investigation or prosecution of a crime punishable by one year or more of confinement;

(3) No reasonable alternative means for obtaining a specimen for DNA profile analysis is available; and

(4) The use is approved by the Assistant Secretary of Defense for Health Affairs.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are stored manually and electronically.

RETRIEVABILITY:

By individual's surname, sponsor's Social Security Number, date of birth, and specimen reference or AFIP accession number.

SAFEGUARDS:

Access to the Armed Forces Institute of Pathology is controlled. Computerized records are maintained in controlled areas accessible only to authorized personnel. Entry to these areas is restricted to those personnel with a valid requirement and authorization to enter. All personnel whose duties require access to, or processing and maintenance of personnel information are trained in the proper safeguarding and use of the

information. Any DNA typing information obtained will be handled as confidential medical information.

RETENTION AND DISPOSAL:

Records are maintained 50 years (pending final approval of this reduced retention period by the National Archives and Records Administration), and then destroyed by shredding or incineration.

Statistical data used for research and educational projects are destroyed after end of project.

Military personnel, their civilian family members, or others may request early destruction of their individual remains identification specimen samples following the conclusion of the donor's complete military service or other applicable relationship to DoD. For this purpose, complete military service is not limited to active duty service; it includes all service as a member of the Selected Reserves, Individual Ready Reserve, Standby Reserve or Retired Reserve.

In the case of DoD civilians and contractor personnel, early destruction is allowed when the donor is no longer deployed by DoD in a geographic area which requires the maintenance of such samples. Upon receipt of such requests, the samples will be destroyed within 180 days, and notification of the destruction sent to the donor.

Requests for early destruction may be sent to the Repository Administrator, Armed Forces Repository of Specimen Samples for the Identification of Remains, Armed Forces Institute of Pathology, Washington, DC 20306-6000.

SUPPLEMENTARY INFORMATION: Reclamation, the Corps, GCID and CDFG have prepared the DEIR/DEIS to analyze the no-action alternative as well as three action alternatives. The action alternatives would minimize loss of all fish species in the vicinity of the pumping plant diversion while maximizing GCID's capability to divert the full quantity of water it is entitled to divert to meet its water supply delivery obligations. The agency preferred alternative would include an extension of the existing fish screen, internal fish bypasses, improvements to the intake and bypass channel, and a gradient facility.

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Public Hearings for a Draft Clean Air Act Conformity Determination and Draft Environmental Impact Statement for Realignment of F/A-18 Aircraft and Operational Functions From Naval Air Station Cecil Field, Florida to Other East Coast Installations

SUMMARY: Pursuant to Section 102(2) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), and the Clean Air Act, General Conformity Rule (40 CFR Part 93), the Department of the Navy has prepared and filed with the U.S. Environmental Protection Agency a Draft Environmental Impact Statement (DEIS) and Draft Clean Air Act Conformity Determination to evaluate the

realignment of F/A-18 aircraft and operational functions from Naval Air Station (NAS) Cecil Field, Florida to other Navy and Marine Corps air stations on the east coast of the United States. In accordance with these laws and regulations, this notice announces the dates and locations of public hearings.

The realignment of F/A-18 aircraft and associated functions from NAS Cecil Field is mandated by the Defense Base Closure and Realignment Act (Pub. L. 101-510, title XXIX) in accordance with the Congressionally approved recommendation of the 1995 Defense Base Closure and Realignment Commission. The DEIS considers five alternatives for realignment of 11 F/A-18 fleet squadrons (132 aircraft) and the fleet replacement squadron (FRS) (48 aircraft).

East coast installations that meet operational criteria and are considered as possible receiving sites for F/A-18 aircraft includes NAS Oceana, Virginia; Marine Corps Air Station (MCAS) Beaufort, South Carolina; and MCAS Cherry Point, North Carolina. The preferred alternative is to single-site the F/A-18 aircraft at NAS Oceana, which has the largest capacity to accommodate the aircraft. Other alternatives that separate the F/A-18 aircraft between two of the bases are considered. The level of new construction required at each base to accommodate the aircraft is related to the number of aircraft to be transferred under each alternative. Each alternative is assessed in the DEIS with regard to its effects on the natural and built environments.

The DEIS has been distributed to various Federal, state, and local agencies, as well as other interested individuals and organizations. In addition, copies of the DEIS have been distributed to the following libraries for public review: Virginia Beach Central Library, 4100 Virginia Beach Boulevard, Virginia Beach, Virginia; Great Neck Library, 1251 Bayne Drive, Virginia Beach, Virginia; Chesapeake Central Library, 298 Cedar Road, Chesapeake, Virginia; Craven County Library, 300 Miller Boulevard, Havelock, North Carolina; Beaufort County Library, 311 Scott Street, Beaufort, South Carolina; Dare County Library, 700 North U.S. 64/264, Manteo, North Carolina; Pamlico County Library, 603 Main Street, Bayboro, North Carolina; Ida Hilton Library, 1105 North Way, Darien, Georgia. A limited number of single copies of the DEIS and Draft CAA Conformity Determination are available upon request by contacting Mr. Dan Cecchini at (757) 322-4891.
