Record of Decision (ROD) for the Disposal and Reuse of Plattsburgh Air Force Base (AFB), New York

On October 2, 1997, the Air Force issued a Record of Decision (ROD) for the Disposal and Reuse of Plattsburgh AFB, New York. The decisions included in this ROD have been made in consideration of, but not limited to, the information contained in the Final Environmental Impact Statement (FEIS) for the Disposal and Reuse of Plattsburgh AFB, filed with the Environmental Protection Agency and made available to the public on November 9, 1995.

Plattsburgh AFB closed on September 25, 1995, pursuant to the Defense Base Closure and Realignment Act of 1990 (10 U.S.C. § 2687 note) and the recommendations of the Defense Base Closure and Realignment Commission. The FEIS analyzed potential environmental impacts of the Air Force's disposal options by portraying a variety of potential land uses to cover a range of reasonably foreseeable future uses of the property and facilities by others. This ROD supplements the Partial ROD (PROD) the Air Force issued on August 21, 1996, which documented a number of decisions regarding the intended disposal of Government-owned property at the base. It announced that the base would be disposed of in parcels, described the parcels, and identified the methods of disposal for some of the parcels. It also discussed possible environmental impacts and mitigations. Disposal decisions for the remainder of the former base were deferred.

This ROD addresses the methods of disposal for real property not addressed in the PROD. That portion of the former base located west of U. S. Route 9, referred to as the "New Base," for which disposal decisions were not announced in the PROD, will be made available for disposal through a public airport conveyance (approximately 3,070 acres of improved land). That portion of the base located east of U. S. Route 9,

referred to as the "Old Base," for which disposal decisions were not announced in the PROD, will be made available for disposal through an Economic Development Conveyance (approximately 250 acres). Both of the disposal decisions are subject to eligible applicants submitting approvable applications by December 31, 1998. After that date, the respective property would be offered for disposal by sale. The ROD also addresses what actions, if any, the Air Force will take to avoid or mitigate adverse environmental consequences from its disposal actions, if different from those described in the PROD.

The implementation of these conversion activities and associated mitigation measures will proceed with minimal adverse impact to the environment. This action conforms with applicable Federal, State and local statutes and regulations, and all reasonable and practical efforts have been incorporated to minimize harm to the local public and the environment.

Any questions regarding this matter should be directed to Mr. John Carr, Program Manager, (703) 696-5546. Correspondence should be sent to: AFBCA/DA, 1700 North Moore Street, Suite 2300, Arlington, VA 22209-2802.
