

compliance with 40 CFR part 63.460, et seq., Subpart T, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning. This information notifies EPA when a source becomes subject to the regulations, informs the Agency if a source is in compliance when it begins operation, and informs the Agency if the source remained in compliance during any period of operation. In the Administrator's judgment, emissions of hazardous air pollutants (HAPs) from halogenated solvent cleaners may cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NESHAP standards were promulgated for this source category, as required under section 112 of the Clean Air Act.

HAP emissions from halogenated solvent cleaners are the result of inadequate equipment design and work practices. These standards rely on the proper design and operation of halogenated solvent cleaners such as working-mode covers, freeboard ratio of 1.0, and reduced room draft to reduce solvent emissions from halogenated solvent cleaners. Certain records and reports are necessary to enable EPA to identify sources subject to the standards and to ensure that the standards are being achieved. Owners/operators of halogenated solvent cleaners must provide EPA with an initial notification of existing or new solvent cleaning machines, initial statement of compliance, an annual control device monitoring report (owners/operators of batch vapor and in-line cleaning machines), an annual solvent emission report (owners/operators of batch vapor and in-line cleaning machines), an annual solvent emission report (owners/operators of batch vapor and in-line cleaning machines complying with the alternative standard), and exceedance of monitoring parameters or emissions. The records that the facilities maintain indicate to EPA whether they are operating and maintaining the halogenated solvent cleaners properly to control emissions. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed

in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 06/18/97 (62 FR 33072); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 7 hours/response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of halogenated solvent cleaners.

Estimated Number of Respondents: 1,845.

Frequency of Response: 4.

Estimated Total Annual Hour Burden: 32,483 hours.

Estimated Total Annualized Cost Burden: \$2,859,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1652.03 and OMB Control No. 2060-0273 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460 (or E-Mail Farmer.Sandy@epamail.epa.gov).

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5912-1]

Agency Information Collection Activities: Submission for OMB Review; Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers, 40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC, OMB Control Number 2060-0318, expiring on November 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 20, 1997.

FOR FURTHER INFORMATION CONTACT: Call Sandy Farmer at EPA, (202) 260-2740, or download off the Internet from <http://www.epa.gov/icr/icr.htm>, and refer to EPA ICR No. 1593.03.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Air Emission Standards for Tanks, Surface Impoundments and Containers, 40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC, (OMB Control Number 2060-0318; EPA ICR No. 1593.03) expiring on November 30, 1997. This is a request for extension of a currently approved collection.

Abstract: The collection of this information is used by the EPA to ensure that appropriate environmental rules are being complied with and that emission control devices are properly operated and maintained. Reports required under this collection authority are used by the Agency to monitor compliance as well as targeting treatment, storage and disposal facilities for inspection. Section 3004(n) of the Hazardous and Solid Waste Amendments (HSWA) directed the EPA to promulgate regulations for monitoring and control of air emissions from treatment, storage and disposal facilities, as necessary, to protect human health and the environment. An agency

may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 18, 1997 (62 FR 33074); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 77 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of facilities that treat, store or dispose hazardous wastes in tanks, surface impoundments and containers.

Estimated Number of Respondents: 9,393.

Frequency of Response: 1 plus on occasion.

Estimated Total Annual Hour Burden: 726,022 hours.

Estimated Total Annualized Cost Burden: \$2,925,000.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1593.03 and OMB Control No. 2060-0318 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460. (or E-Mail Farmer.Sandy@epamail.epa.gov)

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5911-9]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; EPA's Transportation Partners

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: EPA's Transportation Partners Program, EPA ICR No. 1818.01. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 20, 1997.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, call Sandy Farmer at EPA, (202) 260-2740, or download off the Internet at <http://www.epa.gov/icr/icr.htm> and refer to EPA ICR No. 1818.01.

SUPPLEMENTARY INFORMATION:

Title: EPA's Transportation Partners Program, EPA ICR No. 1818.01. This is a new collection.

Abstract: The Transportation Partners program is a new, cooperative, voluntary program that seeks to reduce the growth of vehicle miles traveled (VMT) through the adoption of measures that provide or promote the use of non-single occupancy vehicle transportation choices for citizens. As part of the Climate Change Action Plan, Transportation Partners will play an important role in the nation's commitment to reduce U.S. greenhouse gas emissions.

The Transportation Partners program is designed to work around two types of members: Principal Partners and Project Partners. Principal Partners have substantive areas of expertise and will provide direct assistance to VMT-

reducing projects across the country. Project Partners, on the other hand, administer the individual programs and actions designed to reduce VMT. Local governments, regional governments, local non-governmental organizations, and private businesses may become Project Partners.

As voluntary participants in the Transportation Partners program, Project Partners may be asked to complete an annual Partner Profile that requests general project information. Project-related information requested may include background data about the sponsoring entity, a description (and, to the extent possible, quantification) of project effects on travel, other project effects, and comments regarding program participation and technical assistance. As EPA may request additional information from the Project Partners about their projects, organizations may be requested to periodically submit supplementary information to the Agency.

In addition, EPA sponsors the Way to Go! Awards, which honor local innovators who are enhancing their communities and the environment through transportation improvements. Project Partners will receive an application for the Way to Go! awards. Some Project Partners may choose to complete and submit the application to EPA. The application asks for the following information: the name and focus of the project; a description of project management; a description of the end user(s) of the project; and a project summary and narrative.

Principal Partners have a number of responsibilities, which include: First, they will provide EPA with contact lists of prospective Project Partners. Second, they will disseminate information to partners. Third, Principal Partners will review, sign, and forward Project Partner agreements to EPA. Fourth, Principal Partners will assist EPA in reviewing and compiling Partner Profiles and supplemental information from Project Partners.

Participation in the Transportation Partners program is voluntary. If requested, EPA will treat information as confidential business information and will not make the partner-specific information collected under the program available to the general public, unless the partner's approval is obtained.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter
