BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. 97-ACE-23]

Amendment to Class E Airspace; Crete, NE

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends the Class E airspace area at Crete Municipal Airport, Crete, NE. A review of the airspace for Crete Municipal Airport indicates it does not meet the criteria for 700 feet Above Ground Level (AGL) Class E airspace as required in FAA Order 7400.2D. The area has been enlarged to conform to the criteria of FAA Order 7400.2D. This amendment to the Class E airspace at Crete, NE, excludes the Class E airspace within the Lincoln and Seward, NE, airspace. The intended effect of this rule is to provide controlled Class E airspace in

accordance with FAA Order 7400.2D, and exclude the Class E airspace at Crete, NE, from Class E airspace at Lincoln and Seward, NE.

DATES: *Effective date:* 0901 UTC, April 23, 1998.

Comment date: Comments must be received on or before January 25, 1998.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Docket Number 97-ACE-23, 601 East 12th St., Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, Missouri 64106; telephone: (816) 426-3408.

SUPPLEMENTARY INFORMATION: A review of the airspace for Crete Municipal Airport indicates it does not meet the criteria for 700 feet AGL Class E airspace as required in FAA Order 7400.2D. The criteria in FAA Order 7400.2D for an aircraft to reach 1200 feet AGL is based on a standard climb gradient of 200 feet per mile, plus the distance from the ARP to the end of the outermost runway. The amendment to Class E airspace at Crete, NE, will meet the criteria of FAA Order 7400.2D, provide additional controlled airspace at and above 700 feet AGL, and thereby facilitate separation of aircraft operating under IFR. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all

flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a final rule and was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to

Docket No. 97-ACE-23." The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

ACE NE E5 Crete, NE [Revised]
Crete Municipal Airport, NE

(Lat. 40°37'07" N., long. 96°55'32" W.)

Crete NDB

(Lat. 40°37'27" N., long. 96°55'39" W.)

Lincoln VORTAC

(Lat. 40°55'26" N., long. 96°44'31" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Crete Municipal Airport and within 2.6 miles each side of the 016° bearing from the Crete NDB extending from the 6.4-mile radius to 7.4 miles north of the airport and within 2.6 miles each side of the 172° bearing from the Crete NDB extending from the 6.4-mile radius to 7.4 miles south of the airport and within 2.6 miles each side of the 205° radial of the Lincoln VORTAC extending from the 6.4-mile radius to 7.9 miles southwest of the airport, excluding that airspace within the Lincoln, NE, Class E5 airspace and the Seward, NE, Class E5 airspace.

[Airspace Docket No. 97-ACE-26]

Amendment to Class E Airspace; Atchison, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends the Class E airspace area at Amelia Earhart Airport, Atchison, KS. A review of the airspace for Amelia Earhart Airport indicates it does not meet the criteria for 700 feet Above Ground Level (AGL) Class E airspace as required in FAA Order 7400.2D. The FAA has developed a VHF Omnidirectional Range/Distance Measuring Equipment (VOR/DME) Runway (RWY) 16 Standard Instrument Approach Procedure (SIAP) to serve the Amelia Earhart Airport. Additional controlled airspace 700 feet AGL is needed to accommodate this SIAP and comply with the criteria of FAA Order 7400.2D. The enlarged area will contain the new VOR/DME RWY 16 SIAP in controlled airspace and comply with the requirements of FAA Order 7400.2D. The intended effect of this rule is to provide Class E airspace for instrument operations and comply with the criteria of FAA Order 7400.2D.

DATES: *Effective date:* 0901 UTC, April 23, 1998.

Comment date: Comments must be received on or before January 26, 1998.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Airspace Docket Number 97-ACE-26, 601 East 12th Street, Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106, telephone (816) 426-3408.

SUPPLEMENTARY INFORMATION: The FAA has developed a VOR/DME RWY 16 SIAP to serve the Amelia Earhart Airport, Atchison, KS. The amendment to Class E airspace at Atchison, KS, will provide additional controlled airspace at and above 700 feet AGL in order to contain the new SIAP within controlled airspace, and thereby facilitate separation of aircraft operating under Instrument Flight Rules. The amendment will comply with the criteria of FAA Order 7400.2D. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an
