GENERAL SERVICES ADMINISTRATION

Public Buildings Service

Notice of Intent To Prepare an Environmental Impact Statement (EIS)

SUMMARY: The General Services Administration (GSA) hereby gives notice it intends to prepare an Environmental Impact Statement pursuant to the requirements of the National Environmental Policy Act (NEPA) of 1969, and the President's Council on Environmental Quality Regulations (40 CFR Parts 1500-1508), as implemented by GSA's Order PBS P 1095.4B to dispose of excess federal property known as Governors Island in New York, New York.

The EIS will evaluate the proposed project, the no-action alternative, and any other reasonable alternatives identified through the scoping process. Scoping will be accomplished through direct mail correspondence with interested persons, parties, and organizations and through Public Scoping Meetings to be held in Manhattan and Brooklyn. GSA will publish a Public Notice of these meetings and all subsequent meetings in local newspapers approximately seven to ten days prior to each event.

WRITTEN COMMENTS/FURTHER

INFORMATION: As part of the Public Scoping process, GSA solicits your written comments on the scope of alternatives and potential impacts at the following address: Peter A. Sneed, Senior Program Analyst, Portfolio Management Division, General Services Administration, 26 Federal Plaza, Room 1609, New York, NY 10278. Written comments should be received no later

than January 2, 1998. Requests for further information may also be forwarded to this address.

SUPPLEMENTARY INFORMATION: The GSA is anticipating the preparation of an Environmental Impact Statement on a proposal to dispose of excess federal property in New York, New York. GSA will serve as the lead agency and scoping will be conducted consistent with NEPA regulations and guidelines.

GSA invites interested individuals, organizations, and Federal, State, and local agencies to participate in defining the reasonable alternatives to be evaluated in the EIS, and in identifying any significant social, economic, or environmental issues related to the alternatives. During scoping, comments should focus on identifying specific impacts to be evaluated and suggesting alternatives that minimize adverse significant impacts while achieving similar objectives. Comments may also identify issues which are not significant or which have been covered by prior environmental review. Scoping should be limited to commenting on alternatives and the merit of the proposal rather than indicating preferences. There will be an opportunity to comment on preferences upon completion of the Draft Environmental Impact Statement (DEIS).

Mailing List: If you wish to be placed on the project mailing list to receive future or further information as the EIS develops, contact Peter A. Sneed at the address noted above.

Project Purpose, Historical Background, and Project: On October 16, 1995, the United States Coast Guard (USCG) announced it would close Governors Island by the end of summer 1997. The decision to close Governors

Island was made in response to the Presidential mandate to meet the goals of the National Performance Review and the Government Performance and Results Act. The present organization of Governors Island will transition to a 60-person Caretaker Detachment that will provide security, fire protection and facility maintenance. Disposal of the Island is the responsibility of the General Services Administration. On August 5, 1997, President Clinton signed into law, legislation for the sale of Governors Island. This special legislation incorporated as part of the Balanced Budget Act of 1997 directs the Administrator of General Services Administration to sell Governors Island at fair market value. The State and City of New York have right of first offer to purchase all or part of the Island at fair market value.

Alternatives: The EIS will examine the short and long term impacts on the natural and built environment. Potential impact assessment will include but not be limited to changes in land use and zoning, changes to air and water quality, changes to traffic patterns, and impacts to historic and cultural resources.

The EIS will also examine measures to mitigate significant unavoidable adverse impacts resulting from the proposed action. Concurrent with NEPA implementation, GSA will also implement its consultation responsibilities under Section 106 of the Natural Historic Preservation Act to identify potential impacts to existing historic or cultural resources.

The EIS would consider a no-action alternative and an action alternative which would identify several reuse options. The no-action alternative (no-sale) would keep Governors Island in Federal ownership. The preferred action

alternative is the sale of Governors Island.

Procedures: The Draft EIS will be prepared at the completion of and based upon a scoping report. The Draft EIS will then be made available for public and agency review and comment with a public hearing being held during this comment period. A Final EIS would be prepared following conclusion of the comment period to address issues raised on the Draft EIS.

Dated: November 28, 1997.

Robert Martin,
Acting Regional Administrator (2A).
