AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amended final results of antidumping duty administrative review.

SUMMARY: On October 14, 1997, the Department of Commerce (the Department) published the final results and partial rescission of the ninth administrative review of the antidumping duty order on certain fresh cut flowers from Colombia (62 FR 53287). Based on the correction of ministerial errors made in those final results with respect to two manufacturer/exporters, and the subsequent changes in duty absorption amounts and the rate for non-selected respondents, we are publishing this amendment to the final results in accordance with 19 CFR 353.28(c).

SUPPLEMENTARY INFORMATION:

Background

On October 14, 1997, we published a notice of *Final Results and Partial Rescission of Antidumping Duty Administrative Review (Final Results)*. We received timely allegations of ministerial errors made in the final results by Hosa Ltda (Hosa) and Maxima Farms Group (Maxima) on October 22 & 23, 1997, respectively.

Scope of Review

Imports covered by these reviews are shipments of certain fresh cut flowers from Colombia (standard carnations, miniature (spray) carnations, standard chrysanthemums and pompon chrysanthemums). These products are currently classifiable under item numbers 0603.10.30.00, 0603.10.70.10, 0603.10.70.20, and 0603.10.70.30 of the Harmonized Tariff Schedule (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description of the scope of this order remains dispositive.

Alleged Ministerial Errors

Hosa

Issue 1: Calculation of CEP Profit

In our final results, HOSA claims that the Department erred by failing to include indirect selling expenses incurred in Colombia in calculating constructed export price (CEP) profit.

DOC Position: We agree with HOSA that we failed to include indirect selling expenses incurred in Colombia in calculating CEP profit. We intended to include indirect selling expenses and have made this correction for the amended final results. We note that this omission was unique to HOSA.

Issue 2: Returned Flowers

HOSA alleges that the Department erred in its calculation of costs associated with returned flowers. HOSA claims that the Department should have used cost of production (COP) rather than constructed value (CV), because CV includes an amount for profit.

DOC Position: The question of whether to use CV or COP is a methodological issue. Our use of CV in this calculation was intentional. Therefore, in accordance with 19 CFR 353.28(d), we do not consider this to be a ministerial error (see, 19 CFR 353.28(d) (1996)).

Issue 3: Calculation of Indirect Selling Expenses

While reviewing the above allegations, we discovered an additional ministerial error. When generating the multiplier used in the calculation of indirect selling expenses for CV we did not use the correct number of minicarnations sold in all markets. We have corrected this error.

Maxima

Issue 1: Calculation of Number of Stems of Export-Quality Standard Carnations Sold

Maxima alleges that we failed to increase the number of export-quality stems of standard carnations sold to reflect information obtained at verification regarding home market sales.

DOC Position: We agree with Maxima that the number of stems of export-quality standard carnations sold should be increased by the number of stems sold in the home market. We intended to increase the number pursuant to information gathered at verification and have corrected this error in these amended final results.

Issue 2: Input of Monthly Number of Stems of Minicarnations Transshipped to Third Country

Maxima claims that the final digits of the monthly volumes of minicarnations transshipped through the United States were omitted.

DOC Position: We agree with Maxima and have made this correction in these amended final results.

Duty Absorption

As a result of correcting these ministerial errors, the amount of U.S. sales through affiliated importers has also changed:

Name of company	Percentage of U.S. affiliated importer sales with margins
Hosa	15.83
Maxima	31.61

Amended Final Results of Review

As a result of these amended final results, we determine the following percentage weighted-average margins to exist for Hosa and Maxima (both selected respondents) for the period of review (March 1, 1995 through February 29, 1996):

	Percent
Hosa Group	2.01
