

planning process, and the need for valid and reliable data as a basis for decision-making. Also, a description of planning as a tool for determining the appropriate relationship between resource preservation and public enjoyment has been added, with some general principles to highlight the role that planning plays in accomplishing the NPS mission. The document has been re-organized to clarify the relationship between required elements of various planning processes and standards for those elements. These revisions have involved clarifying and strengthening the discussions, with no major changes in policy direction.

The Director's Order will be considered for adoption by the NPS within the next 60 days. Anyone wishing to provide further comments may obtain a copy at the address and telephone number mentioned above, or by accessing a copy on the Internet at <http://www.nps.gov/planning>.
