The Proposal

The FAA is considering an amendment to Part 71 of the Federal

Aviation Regulations (14 CFR part 71) to establish Class E airspace extending upward from 700 feet above the surface (AGL) at Mount Pleasant, PA. A GPS Point In Space Approach has been developed for Frick Community Hospital Heliport. Additional controlled airspace extending upward from 700 feet above the surface (AGL) is needed to accommodate this approach and for IFR operations to the heliport. The area would be depicted on appropriate aeronautical charts. Class E airspace designations for airspace extending upward from 700 feet above the surface are published in Paragraph 6005 of FAA Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for Part 71 continues to read as follows:

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9D, dated September 4, 1996, and effective September 16, 1996, is proposed to be amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

Approval and Promulgation of Implementation Plans; State of Tennessee and Memphis-Shelby County, Tennessee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Tennessee and by Memphis-Shelby County for the purpose of establishing a federally enforceable state operating permit (FESOP) program and a federally enforceable local operating permit (FELOP) program. In order to extend the Federal enforceability of Tennessee's FESOP and Memphis-Shelby County's FELOP to hazardous air pollutants (HAP), EPA is also proposing approval of the State's FESOP and County's FELOP regulations pursuant to section 112 of the Clean Air Act as amended in 1990 (CAA). In the final rules section of this Federal Register, EPA is approving Tennessee's and Memphis-Shelby County's SIP revisions as a direct final rule without prior proposal because the Agency views this as noncontroversial

revision amendments and anticipates no adverse comments. A detailed rationale for the approvals is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this approval action. Any parties interested in commenting on this action should do so at this time.

DATES: To be considered, comments must be received by March 17, 1997.

ADDRESSES: Written comments should be addressed to: Gracy R. Danois, Air and Radiation Technology Branch, Air, Pesticides & Toxics Management Division, Region 4, Environmental Protection Agency, Atlanta Federal Center, 100 Alabama Street, SW., Atlanta, Georgia 30303.

SUMMARY: EPA is proposing to revoke tolerances for residues of the pesticide Propargite in or on the following commodities: apples, dried apple pomace, apricots, cranberries, figs, dried figs, peaches, pears, plums (fresh prunes), strawberries, and succulent beans.
