### Notice of Lodging of Settlement Pursuant To The Safe Drinking Water Act

In accordance with Department policy, 28 CFR 50.7, notice is hereby given that on December 4, 1997, a proposed Consent Decree in *United States v. Gas Transportation Corporation*, (N.D.FLA.) (Civil No. 3:97CV519/LAC), was lodged with the U.S. District Court for the Northern District of Florida. The United States filed its complaint in this action simultaneously with the consent decree, on behalf of the Environmental Protection Agency ("EPA") pursuant to provisions of the Safe Drinking Act ("SDWA"), 42 U.S.C. 300h-2(b), and its implementing regulations at 40 CFR part 144. The complaint seeks injunctive relief and civil penalties for violations of the SDWA. Gas Transportation Corporation ("GTC") owned and operated the "Finley Heirs" well, a Type II injection well located in Santa Rosa County, Florida, for the disposal of saltwater brine generated as an incident of its oil production. The United States has alleged that GTC's improper operation of the injection well allowed for the movement of contaminants into an underground source of drinking water in violation of the Underground Injection Control ("UIC") regulations, its UIC permit and a previously issued Administration Order on Consent ("AOC"). Under the proposed settlement, GTC will pay \$113,700 in civil penalties based on its limited financial ability, in resolution of the United States' claims as set forth in the complaint.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments concerning the proposed consent decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, U.S. Department of Justice, Washington, D.C. 20530, and should refer to *United States v. Gas Transportation Corporation*, D.J. ref. 90-5-1-1-4388.

The proposed consent decree may be examined at the Office of the United States Attorney for the Northern District of Florida, 114 East Gregory Street, Pensacola, Florida 32501 and at the Consent Decree Library, 1120 G. Street, N.W., 4th Floor, Washington, D.C. 20005. A copy of the proposed decree may be obtained in person or by mail from the Consent Decree Library, 1120 G. Street, N.W., Washington, D.C. 20005. J. Robert Kramer II  
Chief, Litigation II Section  
Antitrust Division

United States Department of Justice  
1401 H Street, N.W., Suite 3000  
Washington, DC 20530

Dear Mr. Kramer: This letter addresses our company's concerns regarding the merger or takeover of USA Waste Services, Inc., Fort Worth by Allied Waste Industries, Inc., Fort Worth. Our company, Independent Environmental Services, Inc. (IESI), is an independent hauler located and doing business in Tarrant County. To my knowledge, we are the only independent hauler in the municipal residential business in Tarrant County and one of a very few competing in the commercial and industrial business in Tarrant County. As I am sure you

are aware, Allied Waste Industries controls all of the assets that were owned by USA Waste Services, Triple A Waste Services, Consolidated Waste Services, Laidlaw Waste Industries, Sanifill, and Tarrant County Waste. This combination has reduced competition in our market and has resulted in higher landfill disposal fees to independent competitors like IESI. As you are no doubt aware, the large public solid waste companies often seek to control their markets and eliminate competition by charging excessive disposal rates to independent operators like IESI.

IESI received a letter from Laidlaw advising us of the opportunity to purchase air space at their newly acquired Crow Landfill as well as additional space at their existing Turkey Creek Landfill. We submitted a proposal to buy air space at the Crow Landfill. My concern is that I also received a letter and phone call from Allied/Laidlaw, which raises our cost of disposal 23% for residential and compacted industrial waste. I have also been advised that my front load commercial disposal rates have been increased 63.4%.

When David Bickel from the US Justice Department interviewed me, I expressed a concern that only Waste Management and Sanifill/USA Waste owned landfills that were strategically and economically located for disposal in Tarrant County. It is also interesting to point out that, prior to the Allied acquisition, Sanifill was not a competitor in the hauling business and was very competitive and accommodating and desirous of our disposal business. These recent price increases by Allied/Laidlaw represent a strategic plan to leverage this capacity and utilize it against us, particularly, since our disposal alternatives are extremely limited.

Allied/Laidlaw has seen fit to measure our front loader trucks differently than the truck manufacturer and the 2 previous landfill owners. I cannot help but think the term "anti-competitive, monopolistic, unfair practices, price gouging, and driving the little guy out of business" all aptly describe the action taken by Allied/Laidlaw. It is also rumored that BFI would be purchasing the air space at Crow. The rumor is supported by the fact that Allied/Laidlaw needs disposal capacity in another market where BFI can accommodate their needs. From an accounting perspective, you can imagine the "pencil whipping" that can take place in that type of an arrangement. A deal could easily be structured or better yet, two deals easily structured in which anyone reviewing the merits would have no idea of the actual accommodations that have taken place. It also further enhances my belief of the desire by the Laidlaw management to drive us out of business.

I'm sure that your decision to approve (subject to conditions) the Allied acquisition did not contemplate the current activities demonstrated by Allied/Laidlaw. If your final judgment is not yet final, we would like to discuss our concerns so that our company may continue to survive.

Your immediate concern to this problem is appreciated.
