

(4) Significant components of other assets including claims on nonrelated parties, and other liabilities to nonrelated parties,

(5) And the number of full-time equivalent employees at each U.S. branch. These new items would conform with items proposed or previously added to the commercial bank Reports of Condition and Income (Call Report) (FFIEC 031-034; OMB No. 7100-0036). Other changes include revising the instructions for the reporting of "when-issued securities" and for "firm commitments to sell residential mortgage loans." Clarifications or other conforming changes would also be made to several other instructions. The Board did not receive any letters of comment in response to the notice published in the *Federal Register* requesting comment on the proposed revisions to the FFIEC 002 for 1997. However, the agencies did receive a comment letter in response to a proposed instructional change related to the reporting of "when-issued securities" commitments on the Call Report. The commenter observed that the Financial Accounting Standards Board (FASB) defined the term "derivative financial instrument" in its June 1996 exposure draft of the proposed accounting standard "Accounting for Derivative and Similar Financial Instruments and for Hedging Activities" as a financial instrument that generally does not require the holder or writer of the instrument to own or deliver the underlying. This commenter felt it would be confusing to report when-issued securities as derivatives in Schedule RC-L if they are not reported as such for other financial reporting purposes. The Federal Financial Institutions Examination Council decided that institutions that do not include "when-issued securities" commitments as part of their disclosures about derivatives for other financial reporting purposes would be permitted to report commitments to sell "when-issued securities" as "other off-balance sheet assets" and commitments to purchase "when-issued securities" as "other off-balance sheet liabilities" in Schedule RC-L. For purposes of consistency, the agencies also will provide this option in the FFIEC 002 instructions.

Board of Governors of the Federal Reserve System, February 10, 1997.

Secretary of the Board.

BACKGROUND: A Memorandum of Understanding (MOU) was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS has delegated program responsibility to CDC.

Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities and input from members of the ICHHP is part of these efforts. The ICHHP will work with the HHES to provide input on American Indian health effects at the Hanford, Washington site.

PURPOSE: The purpose of these meetings is to address issues that are unique to tribal involvement with the HHES, including considerations regarding a proposed medical monitoring program and explorations of options and alternatives to providing support for tribal involvement in HHES.

MATTERS TO BE DISCUSSED: Agenda items will include a dialogue on issues that are unique to tribal involvement with the HHES. This will include exploring options and alternatives to providing support for tribal involvement in HHES and a discussion of tribal representation on HHES.

Agenda items are subject to change as priorities dictate.
