

Sun-It Corporation—Clarification to determine whether taper candles containing oil of citronella are within the scope of the order.

Ocean State Jobbers—Clarification to determine whether taper candles consisting of a blend of petroleum wax and beeswax are within the scope of the order.

Fritz Companies, Inc.—Clarification to determine whether a taper with a design depicting a painted "Christmas scene" of holly ivy and berries, item #416750, is within the scope of the order.

Hallmark Cards, Inc.—Clarification to determine whether the 399FMB5503 Formed Wax Peppermint Candy Candle is within the scope of the order.

A-570-808 *Chrome-Plated Lug Nuts* Wheel Plus, Inc.—Clarification to determine whether imported zinc-plated lug nuts which are chrome-plated in the United States are within the scope of the order.

A-570-822 *Helical Spring Lock Washers (HSLWs)* Shakeproof Industrial Products Division of Illinois Tool Works (SIP)—Clarification to determine whether HSLWs which are imported to the U.S. in an uncut, coil form are within the scope of the order.

Country: Taiwan

A-583-810 *Chrome-Plated Lug Nuts* Wheel Plus, Inc.—Clarification to determine whether imported zinc-plated lug nuts which are then chrome-plated in the United States are within the scope of the order.

A-583-820 *Helical Spring Lock Washers (HSLWs)* Shakeproof Industrial Products Division of Illinois Tool Works (SIP)—Clarification to determine whether HSLWs imported into the U.S. in an uncut, coil form are within the scope of the order.

Country: Japan

A-588-804 *Antifriction Bearings (Other Than Tapered Roller Bearings), and Parts Thereof* Rockwell International Corporation—Clarification to determine whether an automotive component known as a cushion suspension unit (or cushion assembly unit or center bearing assembly) is within the scope of the order.

Koyo Seiko Co., Ltd.—Clarification to determine whether a cylindrical roller bearing, supposedly without a precision rating, for use as an axle bearing in cars and trucks, is within the scope of the orders.

A-588-807 *Industrial Belts and Components and Parts Thereof, Whether Cured or Uncured*

Honda Power Equipment Manufacturing Inc. (HPE)—Clarification to determine whether certain belts HPE imports from Japan for use in manufacturing lawn tractors and riding lawn mowers are within the scope of the order.

American Honda Motor Co., Inc. (AHM)—Clarification to determine whether certain v-belts imported from Japan by AHM are within the scope of the order.

A-588-813 *Light-Scattering Instruments and Parts Thereof from Japan*

Thermo Capillary Electrophoresis, Inc.—Clarification to determine whether diode array detectors and cell flow units are within the scope of the order.

A-588-824 *Corrosion Resistant Carbon Steel Flat Products*

Drive Automotive Industries—Clarification to determine whether 2000 millimeter wide, made to order, corrosion resistant carbon steel coils are within the scope of the order.

Country: Russia

A-821-803 *Titanium Sponge*

Waldron Pacific, Inc.—Clarification to determine whether titanium tablets produced by electrolytic reduction are within the scope of the order.

VI. Pending Anticircumvention Inquiries as of September 30, 1996

Country: Korea

A-580-008 *Color Television Receivers from Korea*

International Brotherhood of Electrical Workers, the International Union of Electronic Electrical, Salaried, Machine & Furniture Workers, and the Industrial Union Department (the Unions)—Anticircumvention inquiry to determine whether Samsung Electronics Co., L.G. Electronics Inc., and Daewoo Electronics Co., are circumventing the order by shipping Korean-origin color picture tubes, printed circuit boards, color television kits, chassis, and other materials, parts and components to plants operated by related parties in Mexico where the parts are then assembled in CTVs and shipped to the U.S. Additionally, an anticircumvention inquiry to determine whether Samsung by shipping Korean-origin color picture tubes and other CTV

parts to a related party in Thailand for assembly into complete CTVs prior to exportation to the U.S. is circumventing the order.

Interested parties are invited to comment on the accuracy of the list of pending scope clarification requests. Any comments should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230.

Dated: February 21, 1997.

Joseph A. Spetrini,

Deputy Assistant Secretary, Enforcement Group III.

BILLING CODE 3510-DS-P

National Oceanic and Atmospheric Administration

[I.D. 022497C]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of applications for a scientific research permit (P770#72), modification 4 to research permit 900 (P770#66), and modification 2 to research permit 914 (P770#67).

SUMMARY: Notice is hereby given that the Coastal Zone and Estuarine Studies Division, Northwest Fisheries Science Center, NMFS in Seattle, WA (CZESD) has applied in due form for a permit and modifications to two permits authorizing takes of endangered and threatened species for scientific research purposes.

DATES: Written comments or requests for a public hearing on any of these applications must be received on or before March 31, 1997.

ADDRESSES: The applications and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

Written comments or requests for a public hearing should be submitted to the Chief, Environmental and Technical Services Division, Portland.

SUPPLEMENTARY INFORMATION: CZESD requests a permit and modifications to two permits under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217–227).

CZESD (P770#72) requests a permit for takes of juvenile, threatened, naturally-produced and artificially-propagated, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*); juvenile, threatened, Snake River fall chinook salmon (*Oncorhynchus tshawytscha*); and juvenile, endangered, Snake River sockeye salmon (*Oncorhynchus nerka*) associated with two juvenile fish bypass studies at McNary Dam on the Columbia River. Study 1 proposes an evaluation of vertical barrier screens and outlet flow-control devices. Study 2 proposes to establish design criteria for improved wet-separator efficiency and high-velocity flume development. Based on the results from these bypass studies, guidance devices and bypass system components can be redesigned, modified, or deployed using specific configurations to enhance juvenile fish passage at hydroelectric powerhouses and subsequently, a potential improvement in downstream survival and adult returns. ESA-listed juvenile fish are proposed to be captured, anesthetized, handled, allowed to recover from the anesthetic, and released. Indirect mortalities are also requested. The permit is requested to be valid in 1997 only.

For modification 4 to permit 900 (P770#66), CZESD requests to extend the duration of the take authorization for Study 8, the Trestle Bay habitat restoration study, through December 31, 1997. Although the authorization for takes of ESA-listed species associated with this study expired on December 31, 1996, permit 900 is not due to expire until December 31, 1998. No change in the type or number of ESA-listed species to be taken for the research is requested.

For modification 2 to permit 914 (P770#67), CZESD requests an increase in the take of juvenile, threatened, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with the evaluation of the effects of dissolved gas supersaturation on fish and invertebrates in Priest Rapids Reservoir and downstream from Bonneville Dam on the Columbia River and Ice Harbor Dam on the Snake River. A larger sample of ESA-listed juvenile fish is proposed to be captured, anesthetized, and examined for signs of gas bubble disease to evaluate the

potential mortality of juvenile salmonids migrating through these river reaches. Associated indirect mortalities is also requested to be increased. Modification 2 to permit 914 is requested for the duration of the permit. Permit 914 expires on December 31, 1998.

Those individuals requesting a hearing on the request for a permit or any of the two permit modification requests should set out the specific reasons why a hearing would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the above application summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Dated: February 24, 1997.

Robert C. Ziobro,
Acting Chief, Endangered Species Division,
Office of Protected Resources, National
Marine Fisheries Service.

BILLING CODE 3510–22–F

[I.D. 022497B]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for modification 8 to enhancement permit 795 (P503A).

SUMMARY: Notice is hereby given that the Idaho Department of Fish and Game in Boise, ID (IDFG) has applied in due form for modification 8 to permit 795 authorizing takes of an endangered species for enhancement purposes.

DATES: Written comments or requests for a public hearing on the modification application must be received on or before April 29, 1997.

ADDRESSES: The application and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910–3226 (301–713–1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232–4169 (503–230–5400).

Written comments or requests for a public hearing should be submitted to the Chief, Environmental and Technical Services Division, Portland.

SUPPLEMENTARY INFORMATION: IDFG requests modification 8 to permit 795

under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217–227).

For modification 8 to permit 795, IDFG (P503A) requests to release juvenile, endangered, artificially-propagated, Snake River sockeye salmon (*Oncorhynchus nerka*) from their captive propagation program into Alturas Lake in 1997. The request is consistent with the recommendations of the Stanley Basin Sockeye Technical Oversight Committee. Currently, releases of juvenile sockeye salmon from the captive propagation program is authorized in Redfish and Pettit Lakes each year. Using a third lake for juvenile sockeye salmon releases will help offset stocking limitations brought on by the natural variability of zooplankton abundance and species composition, and increase the viability of the program by providing additional spawning and rearing habitat. IDFG also request an extension of permit 795 through December 31, 1997 so that the permit may coincide with the captive propagation program annual production cycle. Permit 795 is currently set to expire on July 31, 1997. The modification is requested for the duration of the permit.

Those individuals requesting a hearing on the permit modification request should set out the specific reasons why a hearing would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the above application summary are those of the applicant and do not necessarily reflect the views of NMFS.
