[Docket No. CP98-271-000]

**K N Wattenberg Transmission Limited Liability Company; Complainant, v. Public Service Company of Colorado, Colorado Interstate Gas Company, Coastal Natural Gas Company, Wyoming Interstate Gas Company, New Century Energies, Inc., NCE/CIG Facilities Company LLC, NC Enterprises, Inc., WYCO Development, LLC, WYCO Capacity, LLC, Respondent; Notice of Complaint, Motion for Order To Show Cause and Request for Investigation**

March 13, 1998.

Take notice that on March 9, 1998, K N Wattenberg Transmission Limited Liability Company (K N Wattenburg), P.O. Box 281304, Lakewood, Colorado 80228-8304, filed a complaint, motion to show cause and a request for investigation in Docket No. CP98-271-000 pursuant to Rules 206, 209 and 212 of the Commission's Rules of Practice and Procedure. K N Wattenberg has filed this complaint requesting that the Commission issue an order requiring Public Service Company of Colorado (PSCo), Colorado Interstate Gas Company (CIG) and their affiliated companies named above to show cause why they should not be required to file under Section 7 of the Natural Gas Act (NGA) for authorization to construct and operate as a single jurisdictional pipeline the facilities which are currently the subject of the applications before the Commission in Docket No. CP98-128-000 and before the Colorado Public Utilities Commission, all as more fully set forth in the complaint which is on file with the Commission and open to public inspection.

Specifically, K N Wattenberg complains that PSCo and CIG have formed an anticompetitive alliance to finance, construct and operate an interstate pipeline project to compete against its Front Runner pipeline project, proposed in Docket No. CP98-49-000, which will follow virtually the identical route, provide service to the same markets and will deliver gas from the same source to those markets. K N Wattenberg adds that neither PSCo nor

CIG has requested nor obtained section 7 authorization from the Commission to construct and operate their interstate pipeline project. Instead, alleges K N Wattenberg, both parties are blatantly attempting through the use of their affiliates and a complex series of interrelated, and newly-created, jointly-owned companies, to unlawfully evade the Commission's exclusive jurisdiction under the NGA.

Any person desiring to be heard or to make any protest with reference to this complaint should, on or before April 13, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC, 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules. Answers to the complaint shall be due on or before April 13, 1998.

 i. *FERC Contact*: Jon Cofrancesco, (202) 219-0079.  
 j. *Comment Date*: April 27, 1998.  
 k. *Description of Proceeding*: The Commission has begun a proceeding to determine if reserved authority in article 41 of the license should be used to require a boat launch facility in the tailwater area below Markham Ferry Project's Kerr dam. The proceeding is in response to concerns raised by private citizens, and other entities about the removal of a haul road in the subject area that was used as an informal boat launching ramp. The concerned parties support the reestablishment of boat access to the tailwater area. The Commission has determined that a boat launch facility in the tailwater area is needed, could be operated in a safe manner, and would enhance public fishing opportunities.

The Commission staff prepared an analysis evaluating the need and feasibility of a boat launch facility in the tailwater area of Kerr dam. A copy of this analysis can be obtained by calling the Commission's public reference room at (202) 208-1371.
