Category Two—Representatives of environmental and resource conservation organizations, archaeological and historic interests, and wild horse and burro groups;

Category Three—Representatives of State, county and local government, Native American tribes, academicians involved in natural sciences, and the public at large.

Individuals may nominate themselves or others. Nominees must be residents of the State or States in which the RAC has jurisdiction. Nominees will be evaluated based on their education, training, and experience of the issues and knowledge of the geographical area of the RAC. Nominees should have demonstrated a commitment to collaborative resource decisionmaking. All nominations must be accompanied by letters of reference from represented interests or organizations, a completed background information nomination form, as well as any other information that speaks to the nominee's qualifications.

Simultaneous with this notice, BLM State Offices will issue press releases providing additional information for submitting nominations, with specifics about the number and categories of member positions available for each RAC in the State. Nominations for RACs should be sent to the appropriate BLM offices listed below.

#### **INTERNATIONAL TRADE COMMISSION**

[Investigations Nos. 701-TA-373 (Final) and 731-TA-769-775 (Final)]

**Stainless Steel Wire Rod From Germany, Italy, Japan, Korea, Spain, Sweden, and Taiwan**

**AGENCY:** United States International Trade Commission.

**ACTION:** Scheduling of the final phase of countervailing duty and antidumping investigations.

**SUMMARY:** The Commission hereby gives notice of the scheduling of the final phase of countervailing duty investigation No. 701-TA-373 (Final) under section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act) and the final phase of antidumping investigations Nos. 731-TA-769-775 (Final) under section 735(b) of the Act (19 U.S.C. 1673d(b)) to determine whether an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by

reason of subsidized and less-than-fair-value imports from Germany, Italy, Japan, Korea, Spain, Sweden, and Taiwan of stainless steel wire rod, provided for in subheading 7221.00.00 of the Harmonized Tariff Schedule of the United States.<sup>1</sup>

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

**EFFECTIVE DATE:** March 5, 1998.

**FOR FURTHER INFORMATION CONTACT:** Bonnie Noreen (202-205-3167), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>).

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

The final phase of these investigations is being scheduled as a result of affirmative preliminary determinations by the Department of Commerce that certain benefits which constitute subsidies within the meaning of section 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in Italy of stainless steel wire rod, and that such products from Germany, Italy, Japan,

<sup>1</sup> For purposes of these investigations, Commerce has defined the subject merchandise as articles of stainless steel that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons, or other shapes, in coils, that may also be coated with a lubricant containing copper, lime, or oxalate. Stainless steel wire rod is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. It is manufactured only by hot-rolling or hot-rolling, annealing, and/or pickling and/or descaling, is normally sold in coiled form, and is of solid cross-section. Most stainless steel wire rod sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar. The most common size for stainless steel wire rod is 5.5 millimeters or 0.217 inch in diameter. The range of stainless steel wire rod sizes normally sold in the United States is between 0.20 inch (5.08 millimeters) and 1.312 inches (33.32 millimeters) in diameter. Two stainless steel grades, SF20T and K-M35FL, are excluded from the scope of the investigations.
