

NHTSA notes that Red River's exemption request also covers a horizontal discharge agricultural trailer, a type that is not manufactured by Dan Hill. However, it does not appear that this type of trailer warrants a separate consideration or a longer exemption, given that Red River's petition states that "the modifications required for agricultural Live Bottoms will be similar to those * * * [for] construction Live Bottoms."

NHTSA has concluded that Red River has not made a convincing argument for an exemption of longer than one year. The petitioner describes its primary competition in terms of vehicle type as the "steel end dump trailer" which retails for about \$7,000 less than the Live Bottom trailer. Red River has presented an estimated price increase range if compliance is to be achieved within one to two years, but has requested confidential treatment for it. While NHTSA cannot quote dollar figures for the estimated range of price increases, it can characterize the low end estimate as exceeding 10 percent of the retail price differential between steel end dump trailers and Live Bottoms. Such an increase would result "in a projected loss of sales of approximately 10 percent." Given the 1996 base of 265 Live Bottoms, the estimated price increase were compliance to be required "within one to two years" could result, then, in a loss of 27 sales per year. NHTSA has concluded that this potential loss of sales does not constitute "substantial economic hardship" which would justify an exemption period that is longer than one year. The statute affords any manufacturer granted an exemption the right to apply for a renewal. If either Red River or Dan Hill discover that it requires further time for compliance, it may apply for an extension near the end of the exemption period.

NHTSA is in accord with Red River's public interest and safety arguments, that Live Bottoms possess advantages in certain uses over end dump trailers, and that much of its useful life is spent off the highway.

In consideration of the foregoing, it is hereby found that to require Red River Manufacturing, Inc., to comply immediately with 49 CFR 571.224, Standard No. 224 would cause substantial economic hardship to a manufacturer that has tried in good faith to comply with the standard, and that a one-year exemption would be in the public interest and consistent with the objectives of motor vehicle safety. Accordingly, Red River Manufacturing, Inc. is hereby granted NHTSA Temporary Exemption No. 98-3 from

Federal Motor Vehicle Safety Standard No. 224, *Rear Impact Protection*, expiring April 1, 1999, applicable to Live Bottom horizontal discharge construction and agricultural trailers.
