[Project 11591-000, AK]

#### City of Wrangell, Alaska; Notice of City of Wrangell, Alaska's Request To Use Alternative Procedures in Filing a License Application

April 7, 1998.

The preliminary permit holder, City of Wrangell, Alaska (City), has asked to use an alternative procedure in filing an application for original license for the proposed Sunrise Lake Water and Hydroelectric Project, No. 11591

(Sunrise Lake Project).<sup>1</sup> The City has demonstrated that they have made an effort to contact all resource agencies, Indian tribes, nongovernmental organizations (NGOs), and others affected by their proposal, and that a consensus exists that the use of an alternative procedure is appropriate in this case. The City has also submitted a communication protocol that is supported by most interested entities.

The purpose of this notice is to invite any additional comments on the City's request to use the alternative procedure, as required under the final rule for Regulations for the Licensing of Hydroelectric Projects.<sup>2</sup> Additional notices seeking comments on the specific project proposal, interventions and protests, and recommended terms and conditions will be issued at a later date.

The alternative procedure being requested here combines the prefiling consultation process with the environmental review process, allowing the applicant to complete and file an Environmental Assessment (EA) in lieu of Exhibit E of the license application. This differs from the traditional process, in which the applicant consults with agencies, Indian tribes, and NGOs during preparation of the application for the license and the Commission staff performs the environmental review after the application is filed by the applicant. The alternative procedure is intended to simplify and expedite the licensing process by combining the prefiling consultation and environmental review processes into a single process, to facilitate greater participation, and to improve communication and cooperation among the participants.

#### Applicant Prepared EA Process and Sunrise Lake Project Schedule

On January 20, 1998, the City distributed an Initial Consultation Package for the proposed project to state and federal resource agencies, Indian tribes, and NGOs. The City scheduled a consultation meeting for all interested parties on February 17, 1998, to present their proposal for the project and solicit study requests from participants. Notice announcing the meeting was published locally, as required by Commission regulations.

Public scoping meetings are planned for late May 1998. The City is requesting that all parties to the proceeding provide written requests for study by April 18, 1998. Studies would be

<sup>1</sup> The 2.5-megawatt project would be located on Woronkofski Island, 4 miles southwest of Wrangell, Alaska, within the boundaries of the Tongass National Forest.

conducted during summer 1998, as needed. The application, including the applicant-prepared EA, would be filed with the Commission on or before December 31, 1998.

#### Comments

Interested parties have 30 days from the date of this notice to file with the Commission, any comments on the City's proposal to use the alternative procedures to file an application for the Sunrise Lake Project.

#### Filing Requirements

The comments must be filed by providing an original and 8 copies as required by the Commission's regulations to: Federal Energy Regulatory Commission, Office of the Secretary, Dockets—Room 1A, 888 First Street, NE., Washington, DC 20426.

All comment filings must bear the heading "Comments on the Alternative Procedure," and include the project name and number (Sunrise Lake Water and Hydroelectric Project, No. 11591).
