

materially retarded, by reason of imports from the Republic of Korea of static random access memory semiconductors (SRAMs)<sup>2</sup> that have been found by the Department of Commerce (Commerce) to be sold in the United States at less than fair value (LTFV). The Commission also determines,<sup>3</sup> pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)), that an industry in the United States is materially injured by reason of imports from Taiwan of SRAMs that have been found by Commerce to be sold in the United States at LTFV.

### Background

The Commission instituted these investigations effective February 25, 1997, following receipt of a petition filed with the Commission and Commerce by Micron Technology Inc., Boise, ID. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of SRAMs from Korea and Taiwan were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 16, 1997 (62 FR 53800). The hearing was held in Washington, DC, on February 18, 1998,

<sup>2</sup>The products covered by these investigations are synchronous, asynchronous, and specialty SRAMs from Korea and Taiwan, whether assembled or unassembled. Assembled SRAMs include all package types. Unassembled SRAMs include processed wafers or die, uncut die, and cut die. Processed wafers produced in Korea or Taiwan, but packaged, or assembled into memory modules, in a third country, are included in the scope; processed wafers produced in a third country and assembled or packaged in Korea or Taiwan are not included in the scope.

The scope of these investigations includes modules containing SRAMs. Such modules include single in-line processing modules (SIPs), single in-line memory modules (SIMMs), dual in-line memory modules (DIMMs), memory cards, or other collections of SRAMs, whether unmounted or mounted on a circuit board. The scope of these investigations does not include SRAMs that are physically integrated with other components of a motherboard in such a manner as to constitute one inseparable amalgam (i.e., SRAMs soldered onto motherboards).

The SRAMs within the scope of these investigations are classified in statistical reporting numbers 8542.13.8037 through 8542.13.8049, 8473.30.1000 through 8473.30.9000, and 8542.13.8005 of the Harmonized Tariff Schedule of the United States (HTSUS).

<sup>3</sup>Vice Chairman Bragg voted in the affirmative, Chairman Miller voted in the negative, and Commissioner Crawford did not participate.

and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on April 8, 1998. The views of the Commission are contained in USITC Publication 3098 (April 1998), entitled "Static Random Access Memory Semiconductors From The Republic of Korea and Taiwan: Investigations Nos. 731-TA-761 and 762 (Final)."

Issued: April 9, 1998.

By order of the Commission.
