II. Proposed Supplementary Rules

The South Yuba River receives a high number of visitors and users, especially in the summer period. The area available for camping and picnicking is limited to the terrain. The concentration of visitors to a small area of public land is causing unacceptable impacts to the resources and degrading the recreation experience. The Bureau of Land Management and the California State Parks are currently working on long-term planning for the South Yuba River. These supplementary rules are necessary to protect the resource and the recreational experience until the planning is finalized. After completing the planning efforts, these supplementary rules may be continued, discontinued, or amended. BLM's authority for issuing supplementary rules is contained in 43 CFR 8365.1-6. BLM proposes to adopt the following supplementary rules which would be applicable to all public lands within sections 28 and 34, Township 17 North, Range 8 East of the Mt. Diablo Meridian:

1. No person shall camp overnight. The term *camp overnight* is defined as the use, construction, or taking possession of public lands using tents, shacks, lean-tos, tarps, vehicles, huts, blankets, or sleeping bags.

2. No person shall build, attend, maintain, or use a campfire. The term "campfire" is defined as a controlled fire occurring out of doors, used for cooking, branding, personal warmth, lighting, ceremonial, or esthetic purposes.

3. No person shall possess or consume alcoholic beverages. The term "alcoholic beverages" is defined as beer, wine, distilled spirits, or any other

beverage defined as such by California law.

4. No person shall possess any bottle or container made of glass.

5. Any person who fails to comply with these supplementary rules may be subject to a fine of up to \$100,000 and/or imprisoned not to exceed 12 months. These penalties are specified by 43 U.S.C. 303 and 18 U.S.C. 3623. Federal, State, and local law enforcement officers and emergency service personnel, while performing official duties, are exempt from these supplementary rules.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Minnesota in the Control of the St. Paul District, U.S. Army Corps of Engineers, St. Paul, MN

AGENCY: National Park Service

ACTION: Notice

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the control of the St. Paul District, U.S. Army Corps of Engineers, St. Paul, MN.

A detailed assessment of the human remains was made by U.S. Army Corps of Engineers and Hamline University Osteology Laboratory professional staff in consultation with representatives of the Sisseton-Wahpeton Sioux Tribe of the Lake Traverse Reservation, the Upper Sioux Indian Community of the Upper Sioux Reservation, the Crow Creek Sioux Tribe of the Crow Creek Reservation, Lower Sioux Mdewakanton Community, Shakopee Mdewakanton Sioux community, Prairie Island Community, Flandreau Santee Sioux Tribe, and Santee Sioux Tribe of the Santee Reservation of Nebraska.

In 1969, human remains representing a minimum of 35 individuals were recovered from the Gull Lake dam site (12 CA37) near Brainerd, MN during legally authorized archeological excavations by the University of Minnesota and the Minnesota Historical Society prior to improvements at the Gull Lake dam. No known individuals were identified. The 1,060 associated funerary objects include ceramic vessels, ceramic sherds, pieces of lithic debris, stone tools and tool fragments, two wood charcoal samples, and fragments of canine, beaver, bear, avian, and moose bone.

Based on continuities of material culture in ceramic styles and construction, archeological evidence indicates long-term occupation of this area by the same cultural group, from the archeologically-defined Brainerd to Kathio-Clam River-Blackduck to Psinomani. The Psinomani, present during the Late Woodland and early Contact periods, are generally regarded as the ancestors of the Dakota. Historic documents indicate that Eastern Dakota bands (Mdewakanton, Wahpekute, Sisseton, and Wahpeton), and related
