**FEDERAL TRADE COMMISSION**

**Granting of Request for Early Termination of The Waiting Period Under the Premerger Notification Rules**

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section

7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

**Analysis of Proposed Consent Order To Aid Public Comment**

The Federal Trade Commission has accepted an agreement, subject to final approval, to a proposed consent order from respondent Howard S. Berg.

The proposed consent order has been placed on the public record for sixty (60) days for reception of comments by interested persons. Comments received during this period will become part of the public record. After sixty (60) days, the Commission will again review the agreement and the comments received and will decide whether it should withdraw from the agreement and take other appropriate action or make final the agreement's proposed order.

This matter concerns an efficacy claim made regarding Howard Berg's

Mega Reading promoted by respondent. The Commission's complaint charges that respondent, in concert with Tru-Vantage International, L.L.C. and Kevin Trudeau, made a false and unsubstantiated claim that Howard Berg's Mega Reading is successful in teaching anyone, including adults, children and disabled individuals, to significantly increase their reading speed while substantially comprehending and retaining the material.

The proposed consent order contains provisions designed to remedy the violations charged and to prevent this respondent from engaging in similar acts and practices in the future. The proposed order extends to any product or program purported to significantly increase one's reading speed.

Part I of the proposed consent order prohibits the respondent from representing that Howard Berg's Mega Reading, or any substantially similar product, is successful in teaching anyone, including adults, children and disabled individuals, to increase their reading speed above 800 words per minute while substantially comprehending and retaining the material. Part II of the proposed order prohibits the respondent from representing the performance, benefits, or efficacy of any product or program purported to significantly increase one's reading speed, unless the representation is substantiated.

The remaining parts of the proposed consent order require the respondent to maintain promotional and substantiation materials related to the claims covered by the order, to notify the Commission of any changes in his employment, and to file one or more compliance reports.
