Coastal Zone Management: Federal Consistency Appeal by Jessie W. Taylor From an Objection by South Carolina

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of decision.

On December 30, 1997, the Secretary of Commerce (Secretary) issued a decision in the consistency appeal of

Mr. Jessie W. Taylor (Appellant). The Appellant had applied to the U.S. Army Corps of Engineers (Corps) for a permit to fill wetlands to construct a commercial business on the property. In conjunction with the Federal permit application, the Appellant submitted to the Corps a certification that the proposed activity is consistent with the State's federally approved Coastal Management Program (CMP). The State of South Carolina's coastal management agency, reviewed the certification pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972, as amended (CZMA), 16 U.S.C. 1456(c)(3)(A).

On March 11, 1996, the State objected to the Appellant's consistency certification for the proposed project on the ground that the proposed project is not consistent with the enforceable policies contained in the State's coastal management program. State policies prevented OCRM from considering the Appellant's offer of mitigation in evaluating his activity. Under CZMA section 307(c)(3)(A) and 15 CFR 930.131, the State's consistency objection precludes the Corps from issuing a permit for the activity unless the Secretary finds that the activity is either consistent with the objectives or purposes of the CZMA (Ground I) or necessary in the interest of national security (Ground II). The Appellant based his appeal on Ground I.

Upon consideration of the information submitted by the Appellant, the State and interested Federal agencies, the Secretary made the following findings pursuant to 15 CFR 930.121: First, the proposed project furthers one or more of the competing national objectives or purposes of the CZMA by minimally contributing to the national interest in economic development of the coastal zone. Second, the proposed project, including the Appellant's mitigation measure, would lessen rather than increase cumulative impacts on the natural resources of the coastal zone. Thus, there would appear to be no adverse coastal effects to outweigh the projects minimal contribution to the national interest. Third, the proposed activity will not violate the requirements of the Clean Water Act or the Clean Air Act. Fourth, there would be no reasonable alternative available to the Appellant that would permit the activity to be conducted in a manner consistent with the State's coastal management program. Accordingly, the proposed project is consistent with the objectives or purposes of the CZMA. Because the Appellant's proposed project satisfied all of the requirements of Ground I, the

Secretary overrode the State's objection to the Appellant's consistency certification. Consequently, the proposed project may be permitted by Federal agencies. Copies of the decision may be obtained from the contact person listed below.

Margo E. Jackson, Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910, (301) 713-2967.

Dated: January 16, 1998.

General Counsel.

Marine Mammals; Scientific Research Permit No. 550-1441 (File No. P36D)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Dr. Bernd Wursig, Director, Marine Mammal Research Program, Texas A&M University, 4700 Avenue U/Building 303, Galveston, Texas 77551, has been issued a permit to take Atlantic bottlenose dolphins (*Tursiops truncatus*) for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits Division, Office of Protected Resources, NMFS,

1315 East-West Highway, Room 13705, Silver Spring, MD 20910 (301/713-2289); and

Regional Administrator, Southeast Regional Office, NMFS, NOAA, 9721 Executive Center Drive North, St. Petersburg, FL 33702-2432 (813/570-5301).

SUPPLEMENTARY INFORMATION: On October 29, 1997, notice was published in the **Federal Register** (62 FR 56151), that the above-named applicant had submitted a request for a scientific research permit to harass bottlenose dolphins during the course of: (1) photo-identification and boat-based behavioral studies; (2) biopsy sampling of 100 individuals for genetic and contaminant studies; and (3) acoustic playback experiments to test the behavioral reaction of the dolphins to "pingers" used to deter marine mammal entanglement in commercial fishing gear. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Dated: January 21, 1998.
