All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 20, 1997, and no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 337 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Facilities using pumps, compressors and various devices/systems in volatile hazardous air pollutant service.

Estimated Number of Respondents: 77.

Frequency of Response: 2.

Estimated Total Annual Hour Burden: 57,495 hours.

Estimated Total Annualized Cost Burden: \$19,327.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for reducing a respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1153.06 and OMB Control No. 2060-0068 in any correspondence.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared January 12, 1998 Through January 16, 1998 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the OFFICE OF FEDERAL ACTIVITIES AT (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 11, 1997 (62 FR 16154).

Draft EISs

ERP No. D-BLM-K65275-CA Rating EO2, Fourmile Hill Geothermal Development Project, Construction, Operation and Maintenance, 49.9 megawatt (MW) Geothermal Power Plant, Federal Geothermal Leases CA-21924 and CA-21926, Glass Mountain Known Geothermal Resource Area, Klamath and Modoc National Forests, Siskiyou and Modoc Counties, CA.

Summary: EPA has expressed objections to the significance of potential environmental impacts to the freshwater system and indicated that insufficient data was provided regarding the applied conceptual hydrogeologic model. EPA also expressed objection because the proposed action could establish a precedent for future action with significant effects. EPA also recommended that a second proposed project be included in the same EIS because it is a similar action. ERP No. D-USA-B11022-MA Rating EU3, Massachusetts Military Reservation Facilities Upgrade, Implementation, 10 Projects, Towns of Bourne, Sandwich,

Falmouth and Mashpee, Barnstable County, MA.

Summary: EPA deemed the draft EIS inadequate because it lacked essential information relating to the environmental impacts of past, current and future training activities at the training range and impact area at the military reservation. EPA commented that the most critical deficiency of the DEIS was its failure to address adequately the contamination of Cape Cod's sole source aquifer as the result of past military operations and the potential for future contamination from current and proposed training activities. EPA called for the substantial revision and reissuance of the DEIS as a SEIS in order to provide a basis for understanding the baseline environmental conditions and potential impacts of the expansion of the training ranges.

ERP No. DS-FHW-B40071-CT Rating EC2, I-95 at New Haven Harbor Crossing (Quinnipiac River Bridge) Updated Information for Seven Alternatives on (Q-Bridge) Study, Funding, COE Section 404 Permit, U.S. Coast Guard Bridge Permit, New Haven, East Haven, Branford, Madison and Clinton, CT.

Summary: EPA commented that additional information with regard to wetland and air quality impacts should be provided to fully evaluate the environmental acceptability of various alternatives. EPA also indicated that it is crucial for the final EIS to demonstrate that funding can and will be secured for the transit features of the project. Additionally, EPA asked CTDOT/FHWA to demonstrate the affirmative and effective steps to assure that TSM and transit incentive components will be implemented for the project.

Final EISs

ERP No. F-AFS-L65267-AK Helicopter Landings within Wilderness, Implementation, Tongass National Forest, Chatham, Stikine and Ketchikan Area, AK.

Summary: Review of the final EIS has been completed and the project found to be satisfactory. No formal comment letter was sent to the preparing agency.

ERP No. FA-DOE-A22076-NM Waste Isolation Pilot Plant Disposal Phase, Updated Information, Disposal of Transuranic Waste, Carlsbad, NM.

Summary: EPA has no further comment to offer on the NEPA process. Final approval for operation of the WIPP facility will be based upon EPA's completion of the certification process conducted by EPA's Office of Radiation and Indoor Air and the RCRA permit

review and approval process conducted by the New Mexico Environment Department.
