#### **I. Legal Authority**

This rule is issued under the authority of Section 2705 of Title 10, United States Code. Subsections (c) and (d) of Section 2705 encourage the Department of Defense to establish either a Technical Review Committee (TRC) or Restoration Advisory Board (RAB) to review and comment on DoD actions at military installations undertaking environmental restoration activities. Section 2705(e) permits the Department of Defense to obtain, from private sector sources, technical assistance to help TRCs and RABs better understand the scientific and engineering issues underlying an installation's environmental restoration activities. TRCs and RABs may request this assistance only if:

(1) The TRC or RAB demonstrates that the Federal, State, and local agencies responsible for overseeing environmental restoration at the installation and DoD personnel do not have the technical expertise necessary for achieving the objective for which the technical assistance is to be obtained; or

(2) The technical assistance—

(a) Is likely to contribute to the efficiency, effectiveness, or timeliness of environmental restoration activities at the installation; and

(b) Is likely to contribute to community acceptance of environmental restoration activities at the installation.

Funding for this technical assistance program will come from the Environmental Restoration Accounts established for Army, Navy, and Air Force for operating installations, and from the DoD Component's base closure account for transferring or closing installations. For Defense Agencies the Defense-Wide environmental restoration account will be the source of funds for assistance at operating installations. The Environmental Restoration Account for Formerly Used Defense sites will fund technical assistance at formerly used defense sites.
