

period soliciting comments on the following collection of information was published on October 29, 1996 [61 FR 55835-55836] and a Notice of Final Determination was published on July 22, 1997 [62 FR 39299].

DATES: Comments must be submitted on or before March 6, 1998.

FOR FURTHER INFORMATION CONTACT: Ms. Claretta Duren, Office of Engineering, Federal Highway Administration, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590, (202) 418-8567 or (202) 366-4636. Office hours are from 7:30 a.m. to 4:00 p.m., e.t., Monday thru Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Federal Highway Administration, DOT

Title: Bid Price Data.

OMB Number: 2125-0010.

Type of Request: Reinstatement, without change, of a previously approved collection for which approval has expired.

Affected Public: State highway agencies.

Form(s): FHWA-45.

Abstract: The form FHWA-45, "Bid Price Data," is needed to monitor changes in purchasing power of the Federal-Aid construction dollar. FHWA has found it necessary to follow these trends so that changes in highway construction prices can be measured and funding level recommendations to Congress can be justified. Form FHWA-45 is prepared for Federal-Aid highway construction contracts greater than \$0.5 million in the 50 States plus Washington, DC, and Puerto Rico. Data reported in the form FHWA-45 are six major items of highway construction, together with the total materials and labor costs of the project, taken from the bid tabulation of construction items submitted by the lowest or winning bidder to the State highway agency. The highway agencies furnish copies of the bid tabulation to the FHWA Division offices.

Estimated Annual Burden Hours: 484.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention FHWA Desk Officer.

OMB is required to make a decision concerning this collection of information between 30 and 60 days after publication of this document in the **Federal Register**. However, a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication.

Comments are invited on: Whether the proposed collection of information

is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on January 28, 1998.

Phillip A. Leach,

Clearance Officer, United States Department of Transportation.

BILLING CODE 4910-62-P

DEPARTMENT OF TRANSPORTATION

Office of the Secretary (OST)

Reports, Forms and Recordkeeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: Office of the Secretary, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requests (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describes the nature of the information collection and their expected cost and burden. The **Federal Register** Notice with a 60-day comment period soliciting comments on these collections of information was published on November 19, 1997 (61 FR 61859).

DATES: Comments must be submitted on or before March 6, 1998.

FOR FURTHER INFORMATION CONTACT: Deborah Boothe, Office of Hazardous Materials Standards (DHM-10), Research and Special Programs Administration, Room 8102, 400 Seventh Street, SW., Washington, DC 20590-0001, Telephone (202) 366-8553.

SUPPLEMENTARY INFORMATION: Research and Special Programs Administration, DOT.

1. *Title:* Hazardous Materials Shipping Papers and Emergency Response Information (Former Title: Hazardous Materials Shipping Papers).

OMB Control Number: 2137-0034.

Type Request: Extension of a currently approved collection.

Form(s): N/A.

Affected Public: Shippers and carriers of hazardous materials in intrastate, interstate, and foreign commerce.

Abstract: Shipping papers and emergency response information are a basic communication tool used in the safe transportation of hazardous materials. They serve as a principal means of identifying hazardous materials during transportation, including emergencies, by providing the proper shipping name, hazard class, UN identification number, packing group, and quantity of each hazardous material being transported. Shipping papers also provide emergency response information for use in the mitigation of an incident, and an emergency response telephone number for use in the event of an emergency. The telephone number must be monitored at all times the hazardous material is in transportation, by a person who is either knowledgeable of the hazardous material being shipped and has comprehensive emergency response and incident mitigation information for that material, or has immediate access to a person who possesses such knowledge and information. Shipping papers also serve as a means of notifying transport workers that hazardous materials are present, so that the proper loading, unloading, handling and safety procedures may be followed. This information collection renewal includes new requirements for: shippers and carriers to retain shipping papers for one year as mandated by Section 5110(e) under the Federal hazardous material transportation law; compliance with the HMR by intrastate shippers and carriers, published under Docket HM-200, "Hazardous Materials in Intrastate Commerce: Final Rule", on January 8, 1997 (62 FR 1108); and the President's initiative to reduce the regulatory burdens imposed by the Federal government.

Total Annual Burden Hours: 6,500,000.

2. *Title:* Radioactive Materials (RAM) Transportation Requirements.

OMB Control Number: 2137-0510.

Type Request: Extension of a currently approved collection.

Form(s): N/A.

Affected Public: Shippers and carriers of radioactive materials.

Abstract: The requirements for transportation of RAM are provided in 49 CFR parts 171-180. Information collection requirements for RAM include shipper notification to consignees of the dates of shipment of RAM, expected arrival, special loading/unloading instructions; verification that shippers using foreign-made packages hold a foreign competent authority

certificate and verification that the terms of the certificate are being followed for RAM shipments being made into this country; and specific handling instructions from shippers to carriers for fissile RAM, bulk shipments of low specific activity RAM and packages of RAM which emit high levels of external radiation. These information collection requirements help to establish that proper packages are used for the type of radioactive material being transported, external radiation levels do not exceed prescribed limits, packages are handled appropriately and delivered in a timely manner, so as to ensure the safety of the general public, transport workers and emergency responders. This information collection has been adjusted to reflect program changes regarding responsibility for the routing of highway controlled quantities of radioactive materials.

Total Annual Burden Hours: 14,480.

Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention RSPA Desk Officer.

OMB is required to make a decision concerning these collections of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Exemption Concerning the Foreign Air Carrier Family Support Act of 1997

AGENCY: Department of Transportation, Office of the Secretary.

ACTION: Docket OST 98-3304, Order 98-1-31.

SUMMARY: The Department is exempting those foreign air carriers which currently hold, or may subsequently receive, Department authority to conduct operations in foreign air transportation using only small aircraft, from the provisions of the Foreign Air Carrier Family Support Act of 1997. The order, the text of which is attached, is

effective until further order of the Department.

FOR FURTHER INFORMATION CONTACT:

George Wellington, Foreign Air Carrier Licensing Division, U.S. Department of Transportation, Room 6412, 400 Seventh Street, SW., Washington, DC 20590. Telephone (202) 366-2391.

Dated: January 29, 1998.

Attachment

Patrick V. Murphy,

Deputy Assistant Secretary for Aviation and International Affairs.

Issued by the Department of Transportation on the 29th day of January, 1998.

Served: February 3, 1998.

In the matter of: The Foreign Air Carrier Family Support Act of 1997.

Order Granting Exemption

Summary

In this order we exempt foreign air carriers which currently hold, or may subsequently receive, Department authority to conduct operations in foreign air transportation using only small aircraft, from the provisions of 49 U.S.C. section 41313.

Background

The Foreign Air Carrier Family Support Act of 1997 (PL 105-148), signed into law December 16, 1997, adds to Title 49 of the U.S. Code a new section 41313, "Plans to address needs of families of passengers involved in foreign air carrier accidents." Section 41313 extends to foreign air carriers requirements similar to those imposed on U.S. certificated carriers in 49 U.S.C. section 41113 by the Aviation Disaster Family Assistance Act of 1996. Sections 41113 and 41313 require, among other things, that all certificated and foreign air carriers develop and submit to the Department and to the National Transportation Safety Board a plan to address the needs of families of passengers involved in aircraft accidents.

Decision

Section 41113 limits the scope of its coverage to certificated U.S. air carriers, thus excluding, as a class, U.S. air taxi operators. The language in section 41313, however, makes no distinction as to the size of aircraft operated by affected foreign carriers, thus technically requiring compliance from all such carriers, including those operating only small, air taxi-sized aircraft. However, the clear intent of the Foreign Air Carrier Family Support Act of 1997 was to extend the coverage of the Aviation Disaster Family Assistance Act of 1996 to comparably situated foreign air carriers, and not to expand that coverage to include an additional class of carrier that operates only small aircraft.

In light of this situation, we have decided to exempt those foreign air carriers that currently hold, or may subsequently receive, Department authority to conduct operations in foreign air transportation using *only* small aircraft (*i.e.*, aircraft designed to have a maximum passenger capacity of not more

than 60 seats or a maximum payload capacity of not more than 18,000 pounds), from the provisions of 49 U.S.C. 41313.¹ We find that our action will result in more effective implementation of the important objectives of the Foreign Air Carrier Family Support Act of 1997, and will remove an unintended and inappropriate burden from the affected class of foreign carrier small-aircraft operators.

Note that this exemption applies solely to foreign carriers whose Department authority is limited to small-aircraft operations only. For example, a foreign carrier authorized to conduct U.S. operations using large and small aircraft (*i.e.*, without limitation as to aircraft size), and that elects to conduct those operations using only small aircraft, is *not* relieved from the requirement to file a plan. Similarly, if the foreign carrier operates a mixed fleet of large and small aircraft, *all* of its operations must be covered by its plan, including its operations with small aircraft. In view of the above, we find that it is consistent with the public interest to grant the exemption described above. We also find that our action does not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975.

Accordingly

1. We exempt all foreign air carriers that currently hold, or may subsequently receive, Department authority to conduct operations in foreign air transportation using only small aircraft (*i.e.*, aircraft designed to have a maximum passenger capacity of not more than 60 seats or a maximum payload capacity of not more than 18,000 pounds), from the provisions of 49 U.S.C. 41313;

2. This order is effective immediately, and shall remain in effect until further order of the Department;

3. We may amend, modify, or revoke this order at any time and without hearing;

4. We shall serve this order on all Canadian air taxi operators conducting operations under 14 CFR Part 294, and all other foreign air carriers holding Department authority to conduct operations using only "small" aircraft as defined in ordering paragraph 1 above; and

5. We will publish this order in the **Federal Register**.

By: Patrick V. Murphy, Deputy Assistant Secretary for Aviation and International Affairs.

Footnote 1. For the purposes of this order, we have used the definition of "small aircraft" applicable to U.S. air taxi operators and contained in 14 CFR Part 298. The exemption we are granting here therefore encompasses (in addition to other foreign air carriers) Canadian air taxis conducting operations under 14 CFR Part 294.
