Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443–0525.

Proposed Project: Treatment Improvement Protocols (TIPs) Evaluation Project—New—Since 1992, the Center for Substance Abuse Treatment (CSAT) has published 25 Treatment Improvement Protocols

which provide administrative and clinical practice guidance to the substance abuse treatment field. CSAT plans to conduct an evaluation study to determine the impact of TIPs. The first phase of the evaluation, the Retrospective Study, will examine the impact of TIPs published by CSAT as of September 1998. Surveys of four distinct target audiences of interest to CSAT will be conducted including Single State Agency Directors, directors of substance abuse treatment facilities listed in the most recent Uniform Facilities Data Set (UFDS) database, clinical directors of treatment facilities listed in the UFDS database, and frontline clinicians/counselors working in facilities listed in the UFDS database. Measures will include organization characteristics and outcomes associated with the following variables: awareness, receipt, and reading of TIPs; perceived utility of TIPs; and the impact of TIPs on changing substance abuse treatment practices. The estimated annualized burden is summarized below.

	No. of respondents	No. of responses/ respondent	Hours/ response	Total burden hours
Single State Agency Directors	56	2	0.50	56
Facility Directors	408	2	0.42	343
Clinical Directors	408	2	0.42	343
Counselors	408	2	0.42	343
Total	1,085

Proposed Project: State Treatment Needs Assessment Studies—New—SAMHSA's Center for Substance Abuse Treatment (CSAT), as part of its State Treatment and Needs Assessment Program (STNAP), awards contracts to States to conduct studies for the purpose of determining the need and demand for substance abuse treatment within each State. In order to receive funds from the Substance Abuse

Prevention and Treatment Block Grant, States must submit in their annual block grant applications an assessment of service needs Statewide, at the sub-state level, and for specified population groups (as required by Section 1929 of the Public Health Service Act). Most States plan to conduct an adult telephone household survey to collect information on needed treatment for substance abuse/dependence. In

addition, many States plan to conduct a variety of more focused studies which will collect data on treatment need in special populations, including adolescents, pregnant women, injecting drug users, American Indians, arrestees and other criminal justice populations. The estimated annualized burden for the State needs assessment studies over the next three years is presented below.

	No. of respondents	No. of responses/ respondent	Hours/ response	Total burden hours	Annualized burden hours
Adult Household Telephone Surveys	54,400	1	0.5	27,200	9,067
Adolescent Surveys	25,800	1	0.5	12,900	4,300
Criminal justice populations	9,050	1	1.0	9,050	3,017
Medicaid recipients	7,800	1	0.5	3,900	1,300
Other population groups	8,100	1	1.0	8,100	2,700
Treatment providers	255	1	1.0	255	85
Total	61,405	20,469
