To help focus comments on the environmental issues, a scoping document outlining subject areas to be addressed in the EIS will be mailed to those on the mailing list for the project. Those not on the mailing list may request a copy of the scoping document from the project coordinator, whose telephone number is listed below.

Those with comments or information pertaining to this project should file it with the Commission at the following address: David P. Boergers, Acting Secretary, Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

The comments and information are due to the Commission by April 10, 1998. All filings should clearly show the following on the first page: Crystal Creek Hydroelectric Project, FERC No. 10847–001.

In addition to written comments, we're holding two scoping meetings to solicit any verbal input and comments you may wish to offer on the scope of the EIS. An agency scoping meeting will begin at 8:30 a.m. on Wednesday, March 11, 1998, at the San Bernardino Valley Municipal Water District, 1350 South "E" Street, San Bernardino, California. A public scoping meeting will begin at 6:30 p.m. on Wednesday, March 11, 1998, at the Lucerne Valley Community Center, 33187 Highway 247, Lucerne Valley, California. The public and agencies may attend either or both meetings, and we'll treat written and verbal responses equally. There will also be a visit to the proposed project site on March 10, 1998, to become more familiar with the proposed project. More information about these meetings and site visit is available in the scoping document.

Any questions may be directed to Mr. Carl Keller, project coordinator, at (202) 219–2831, Federal Energy Regulatory Commission, Office of Hydropower Licensing, 888 First Street, NE, Washington, D.C. 20426.
