Other Federal, State, and local agencies such as the U.S. Army Corps of Engineers (Corps), the U.S. Environmental Protection Agency (EPA), the National Marine Fisheries Service (NMFS), the Fish and Wildlife Service (FWS), the State of Alaska (State) agencies, and the North Slope Borough (NSB) also have permit and other approval or authorization responsibilities over selected aspects of the project.

No development or production activities can be conducted until MMS has approved the DPP and the DPP has received coastal zone consistency concurrence from the State.

### 3. Alternatives

Other possible alternatives that may be considered include variations of the proposed action and alternatives identified during the scoping process.

### 4. Public Involvement and Scoping

The MMS consulted with Federal, State, and local agencies in January 1998 on the proposed action. At this time the Corps has indicated that they will be a cooperating agency for the EIS. The MMS is requesting comments from Federal, State, and local governments and other interested parties on the scope of the EIS, significant issues that should be addressed, and additional alternatives that should be considered. Comments should be sent to the address given above and enclosed in an envelope labeled "Comments on the Notice of Intent to Prepare an EIS on the Liberty Project, Beaufort Sea." Comments are due no later than 45 days from publication of this Notice.
