

97-ANM-14, 1601 Lind Avenue S.W., Renton, Washington 98055-4056; telephone number: (425) 227-2527.

SUPPLEMENTARY INFORMATION:

History

On December 5, 1997, the FAA proposed to amend Title 14, Code of Federal Regulations, part 71 (14 CFR part 71) by revising the Big Piney Class E airspace area at Big Piney, WY (62 FR 64323). This action would provide the airspace to fully encompass an SIAP for Big Piney-Marbleton Airport. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Big Piney, WY. This modification of airspace is necessary to fully encompass the GPS Runway 31 SIAP and associated missed approach holding pattern for the Big Piney-Marbleton Airport. This revision will add approximately 12 miles of additional airspace to the southeast, thus ensuring that all flight procedures associated with the new SIAP are contained within controlled Class E airspace. The FAA establishes Class E airspace extending upward from 700 feet AGL, where necessary, to contain aircraft transitioning between the terminal and en route environments. The intended effect of this proposal is designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under Instrument Flight Rules (IFR) at the Big Piney-Marbleton Airport and between the terminal and en route transition stages.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant

preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p.389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ANM WY E5 Big Piney, WY [Revised]

Big Piney-Marbleton Airport, WY
(Lat. 42°35'06"N, long. 110°06'40"W)

Big Piney VOR/DME
(Lat. 42°34'46"N, long. 110°06'33"W)

That airspace extending upward from 700 feet above the surface within 4.8 miles southwest and 8.3 miles northeast of the Big Piney VOR/DME 134° AND 314° radius extending from 4 miles northwest to 16.6 miles southeast of the VOR/DME; that airspace extending upward from 1,200 feet above the surface within 7.9 miles southwest and 11.8 miles northeast of the Big Piney 134° and 314° radials extending from 10.1 miles northwest to 33 miles southeast of the VOR/DME.

14 CFR Part 71

[Airspace Docket No. 97-ANM-04]

Establishment of Class E Airspace; Poplar, MT; and Revision of Class E Airspace; Wolf Point, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes the Poplar, MT, Class E airspace and revises the Wolf Point, MT, Class E airspace. The airspace is necessary in order to fully encompass the procedures for a new Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAP) at the Poplar Airport, Poplar, MT.

EFFECTIVE DATE: 0901 UTC, April 23, 1998.

FOR FURTHER INFORMATION CONTACT: Dennis Ripley, ANM-520.6, Federal Aviation Administration, Docket No. 97-ANM-04, 1601 Lind Avenue, SW., Renton, Washington 98055-4056; telephone number: (425) 227-2527.

SUPPLEMENTARY INFORMATION:

History

On December 5, 1997, the FAA proposed to amend Title 14, Code of Federal Regulations, part 71 (14 CFR part 71) by establishing Class E airspace area at Poplar, MT, and revising Class E airspace at Wolf Point, MT (62 FR 64322). This action would provide the airspace to fully encompass a SIAP at Poplar Airport. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received.

This action is the same as the proposal except for a typographical error discovered (and corrected herein) in the coordinates for the Poplar Airport, the Wolf Point, L M Clayton Airport, and the Wolf Point NDB. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 establishes Class E airspace at Poplar, MT, and revises adjacent airspace at Wolf Point, MT. This airspace is necessary to fully encompass the GPS Runway 9 approach and associated holding pattern for the Poplar Airport, Poplar, MT. This rule establishes a 700-foot Class E area within a 9.1-mile radius around the Poplar Airport and amends the adjacent 1200-foot Class E airspace at Wolf Point, MT, that fully encompasses the holding procedure associated with the SIAP. The FAA establishes Class E airspace extending upward from 700 feet AGL where necessary to contain aircraft transitioning between the terminal and en route environments. The intended effect of this proposal would be to provide safe and efficient use of the navigable airspace and to promote safe flight operations under Instrument Flight Rules (IFR) at the Poplar Airport and between the terminal and en route transition stages.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Docket No. OST–95–950]

RIN 2105–AB78

Passenger Manifest Information

AGENCY: Office of the Secretary (OST), DOT.

ACTION: Final rule; correction.

SUMMARY: DOT published a rule on February 18, 1998, requiring certificated air carriers and large foreign air carriers to collect the full name of each U.S.-citizen traveling on flight segments to or from the United States and solicit a contact name and telephone number. This document corrects a technical error in one section of the rule language to make clear that petitions requesting a

waiver from the rule because of conflicts with foreign law should be filed by October 1, 1998, or on or before beginning service between that country and the United States.

DATE: This rule is effective March 20, 1998.

FOR FURTHER INFORMATION CONTACT:

Joanne Petrie, Office of the General Counsel, DOT, (202) 366–9306.

SUPPLEMENTARY INFORMATION: On February 18, 1998, DOT published a final rule (63 FR 8258) concerning passenger manifest requirements. This document corrects a technical error in paragraph (b) of § 243.15. The February 18, 1998, version states that petitions requesting waivers should be filed, "on or before the effective date of this rule, or on or before beginning service between that country and United States." The reference to effective date is incorrect and is being replaced by the phrase, "October 1, 1998."

Accordingly, the Department is correcting the rule published February 18, 1998, as follows:

On page 8282 in the second column in § 243.15(b), the phrase "the effective date of this rule" is corrected to read, "October 1, 1998."

Issued in Washington, DC, on February 19, 1998.

Nancy E. McFadden,

General Counsel.
