Notice of Meeting of the Eastern Washington Resource Advisory Council

AGENCY: Bureau of Land Management, Spokane District.

ACTION: Meeting of the Eastern Washington Resource Advisory Council; February 3, 1999, in Spokane Washington.

SUMMARY: A meeting of the Eastern Washington Resource Advisory Council will be held on February 3, 1999. The meeting will convene at 8:30 a.m., at the Spokane District Office of the Bureau of Land Management, 1103 N. Fancher, Spokane, Washington 99212-1275. The meeting will adjourn upon conclusion of business, but no later than 4:30 p.m.

Public comments will be heard from 10:00 a.m. until 10:30 a.m. If necessary to accommodate all wishing to make public comments, a time limit may be placed upon each speaker. At an appropriate time, the meeting will adjourn for approximately one hour for lunch. Topics to be discussed include: Forest Health, Land Exchanges and an update on the Interior Columbia Basin Ecosystem Management Project.

FOR FURTHER INFORMATION CONTACT:

Clifford D. Ligons, Bureau of Land Management, Spokane District Office, 1103 N. Fancher Road, Spokane, Washington 99212-1275; or call 509-536-1200.

Dated: December 31, 1998.

Gary J. Yeager,

Acting District Manager.

Notice of Proposed Reinstatement of Terminated Oil and Gas Lease

Pursuant to the provisions of 30 U.S.C. 188(d) and (e), and 43 CFR 3108.2-3(a) and (b)(1), a petition for reinstatement of oil and gas lease WYW141848 for lands in Campbell County, Wyoming, was timely filed and was accompanied by all the required rentals accruing from the date of termination. The lessee has agreed to

the amended lease terms for rentals and royalties at rates of \$5.00 per acre, or fraction thereof, per year and 16 $\frac{2}{3}$ percent, respectively.

The lessee has paid the required \$500 administrative fee and \$125 to reimburse the Department for the cost of this **Federal Register** notice. The lessee has met all the requirements for reinstatement of the lease as set out in Section 31(d) and (e) of the Mineral Lands leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease WYW141848 effective September 1, 1998, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Pamela J. Lewis,

Chief, Leasable Minerals Section.

Filing of Plats of Survey: Oregon/ Washington

AGENCY: Bureau of Land Management.

ACTION: Notice.

SUMMARY: The plats of survey of the following described lands are scheduled

to be officially filed in the Oregon State Office, Portland, Oregon, thirty (30) calendar days from the date of this publication.

Willamette Meridian

Oregon

T. 37 S., R. 1 E., accepted November 30, 1998

T. 30 S., R. 5 W., accepted December 4, 1998

T. 34 S., R. 5 W., accepted October 23, 1998

T. 28 S., R. 7 W., accepted November 12, 1997

T. 35 S., R. 7 W., accepted October 23, 1998
 T. 38 S., R. 8 W., accepted October 23, 1998
 Washington

T. 36 N., R. 42 E., accepted December 4, 1998
 T. 26 N., R. 13 W., accepted November 23, 1998

If protests against a survey, as shown on any of the above plat(s), are received prior to the date of official filing, the filing will be stayed pending consideration of the protest(s). A plat will not be officially filed until the day after all protests have been dismissed and become final or appeals from the dismissal affirmed.

The plat(s) will be placed in the open fields of the Oregon State Office, Bureau of Land Management, 1515 S.W. 5th Avenue, Portland, Oregon 97201, and will be available to the public as a matter of information only. Copies of the plat(s) may be obtained from the above office upon required payment. A person or party who wishes to protest against a survey must file with the State Director, Bureau of Land Management, Portland, Oregon, a notice that they wish to protest prior to the proposed official filing date given above. A statement of reasons for a protest may be filed with the notice of protest to the State Director, or the statement of reasons must be filed with the State Director within thirty (30) days after the proposed official filing date.

The above-listed plats represent dependent resurveys, survey and subdivision.

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Air Force Flight Test Center, Edwards Air Force Base, CA

AGENCY: National Park Service, DOI.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects

in the possession of the Air Force Flight Test Center (AFFTC), Edwards Air Force Base, CA.

A detailed assessment of the human remains was made by AFFTC professional staff in consultation with representatives of the Chemehuevi Indian Tribe of the Chemehuevi Reservation, the San Manuel Band of Serrano Mission Indians of the San Manuel Reservation, the Morongo Band of Cahuilla Mission Indians of the Morongo Reservation, and the Colorado River Indian Tribes of the Colorado River Indian Reservation.

SUMMARY: Between 1972 and 1990, human remains representing nine individuals were recovered from five archaeological sites on Edwards Air Force Base (EAFB). These sites include: CA-LAN-1296 (one possible and three probable cremations); CA-KER-2060/H (one cremation and one inhumation); CA-KER-2241 (one interment unknown type); CA-LAN-1158 (one cremation); and CA-KER-796 (one interment, unknown type). No known individuals were identified. Associated funerary objects include three projectile points (two arrow points and one dart point), one bone tool, 18 shell beads, and two modified shell fragments. The ethnohistoric information establishing the relationship between these tribes and the Native American human remains and associated funerary objects consists of ethnographies, language studies, Spanish mission records, oral interviews, and other sources (Earle 1997). No unassociated funerary objects, sacred objects, or objects of cultural patrimony were identified in the collection.

In 1972, one human cranial bone fragment representing one individual was recovered from the surface during legally authorized excavations at the CA-LAN-1296 (AVAS-1; EAFB-1000) site by the Antelope Valley Archaeological Society (AVAS)(EAFB Historic Preservation Office file 72-A). No consultation was done at the time of the discovery of the cranial bone fragment. The cranial bone fragment (ISOCAT# 2181; AVAS 1-38a) appears to have been part of a cremation interment. No associated funerary objects were found with the cranial bone fragment.

In 1988, Regional Environmental Consultants (RECON) conducted legally authorized test excavations at CA-LAN-1296 and recovered human bone representing three individuals (Hector et al. 1988). The first individual is represented by 18 unidentified human bone fragments (RECON CAT# 163-119a) that were surface collected from a probable cremation interment in Unit 12 (Locus E). The artifacts found in

association with the 18 human bone fragments consist of five *Olivella* sp. shell beads (RECON CAT# 163-118, surface) and one *Haliotis* sp. shell fragment (RECON CAT# 163-119d, surface). On Edwards AFB, *Olivella* sp. shell beads and *Haliotis* sp. shell generally date to the Gypsum through Late Periods (2000 B.C.-A.D. 1770). The second individual is represented by 180 human bone fragments that were surface collected from a probable cremation interment in Unit 18 (Locus E). The human bone fragments consist of an orbit fragment, distal metacarpal fragment (RECON CAT# 163-196a), and 178 unidentified bone fragments (RECON CAT# 163-196b-d). The artifacts found in association with the 180 human bone fragments include: one unidentified shell fragment (RECON CAT# 163-196f, surface); 12 unidentified shell beads (RECON CAT# 163-197, 0-10 cm); one Humboldt dart point (RECON CAT# 163-199, 0-10 cm); and one *Olivella* sp. shell bead (RECON CAT# 163-201, 10-20 cm). Humboldt dart points and *Olivella* sp. shell beads are diagnostic artifacts of the Gypsum Period (2000 B.C.—A.D. 500). The third individual is represented by one human cranial bone fragment (RECON CAT# 163-231a, 10-20 cm). The cranial bone fragment was excavated from a probable cremation interment in Unit 21 (Locus D). No associated funerary objects were found with the cranial bone fragment.

The estimated date of occupation at the CA-LAN-1296 site is 5000 B.C.-A.D. 1770 based on the presence of Pinto, Gypsum, Saratoga Springs, and Late Period components (Earle et al. 1997a). Native Americans were not consulted at the time the human remains were recovered from the CA-LAN-1296 site. The human remains were not identified as such until they were examined by Dr. Rose Tyson of the San Diego Museum of Man during the NAGPRA inventory process. The cultural affiliation of the human remains can not be positively determined (Campbell et al. 1997). Ethnohistoric information, however, indicates that the human remains may be affiliated with one of the five tribes (Chemehuevi, Kawaiisu, Kitanemuk, Serrano, or Tataviam) who utilized the region in historic times (Earle 1997). This is supported by the site's location in the vicinity of historic "Ap'avutsiviat" or Buckhorn Springs (Earle 1997:59).

In November 1985, the Base Historic Preservation Officer (BHPO), Richard H. Norwood, recovered human bone representing two individuals (one cremation; one inhumation) during an emergency investigation at site CA-KER-2060/H (EAFB-617)(EAFB Historic
