An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B. Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0885.

Expiration Date: 08/31/1999.

Title: Telephone Number Portability, CC Docket No. 95-116, Third Report and Order (Local Number Portability Worksheet and Recordkeeping Requirement).

Form No.: FCC Form 487.

Respondents: Business or other for profit.

Estimated Annual Burden: 4,400 respondents; 1.74 hours per response (avg.); 7,675 total annual burden hours.

*Estimated Annual Reporting and
Recordkeeping Cost Burden:*
\$2,257,000.

Frequency of Response: On occasion;
annually.

Description: In the Third Report and Order issued in CC Docket No. 95-116, the Commission implements, for long-term number portability costs, the statutory requirement that all telecommunications carriers bear the costs of number portability on a competitively neutral basis, as set forth in Section 251(e)(2) of the Telecommunications Act of 1996. The Third Report and Order requires telecommunications carriers to provide the information about their international and regional end-user telecommunications revenues that will enable the regional database administrator to allocate the costs of the number portability regional databases in a competitively neutral manner. See 47 CFR Sections 52.32 and 52.33 FCC Form 487, LNP Worksheet is designed to capture this information. FCC Form 487 will be distributed by Lockheed Martin IMS. Forms are to be filed by April 16, 1999. Call 877-245-5277 if you are required to file FCC Form 487 and need a copy of the form or additional information. (No. of respondents: 3000; hour per response: .50 per respondent contracting out for the preparation of the form and 5 hours for other respondents; total annual burden: 4875 hours). The Third Report and Order requires incumbent local exchange carriers (LECs) to maintain records that detail both the nature and specific amount of these carrier-specific costs that are directly related to number portability, and those carrier-specific costs that are not directly related to number portability. (No. of respondents: 1400; hours per response: 2 hours; total annual burden: 2800 hours). Lockheed Martin IMS will be collecting the information on all telecommunications carriers' regional and international end-user telecommunications revenues to determine each carrier's contribution to the cost of the regional number portability databases. As the administrator, Lockheed Martin must collect sufficient revenues to fund the initial building and ongoing operations of the regional databases.

Obligation to respond: Mandatory.

Public reporting burden for the collections of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to

Performance Evaluation and Records Management, Washington, DC. 20554.
