DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AA210-00-4410-01-2410]

Public Land and Resources; Planning, Programming, and Budgeting

AGENCY: Bureau of Land Management; Interior.

ACTION: Notification of resource management planning schedule.

SUMMARY: The Federal Land Policy and Management Act (FLPMA) requires the Bureau of Land Management (BLM) to prepare land use plans to provide management direction for the public lands. Since 1984, the BLM has completed 108 Resource Management Plans (RMP); 56 earlier and smaller

Management Framework Plans (MFP) are still in place. These plans are periodically evaluated, and amended or revised to respond to new circumstances or proposals. Some of the MFPs are replaced by new RMPs when the decisions in the MFPs are no longer valid and it is not feasible to update the decisions through the amendment process.

SUPPLEMENTARY INFORMATION: The Planning Regulations at 43 CFR 1610.2(b) require the BLM to annually publish a planning schedule identifying plan amendments and new RMPs in progress or planned over the next three years. Six RMPs are scheduled to be completed in fiscal year 1999: Las Vegas, NV [signed in October 1998]; Dixie, UT; Challis, ID; Southeast Oregon; Newcastle, WY; and the Management Plan for the Grand Staircase-Escalante National Monument, UT. The Owyhee, ID is scheduled for fiscal year 2000.

Two plans will start this year and be completed in fiscal year 2001: the Lakeview (OR) RMP will be done jointly with the Forest Service Management Plans for the Fremont and Winema National Forests. The Snake River (WY) RMP is the smallest ever, just 2,000 acres, covering islands and other isolated lands in Teton County. The 8 new RMPs currently in progress or planned will replace 12 existing MFPs. Since no schedule was published last year, we have included fiscal year 1998 actions, including completing the Roswell, Grass Creek and Green River RMPs.

Fifty-four land use plan amendments are in progress or planned for fiscal year 1999, excluding the Interior Columbia Basin Ecosystem Management Project. This Project which is scheduled for completion in fiscal year 2000 will be used to amend an additional 43 RMPs and MFPs. New Mexico BLM will amend all 10 of its RMPs in fiscal year 1999 to incorporate Statewide Standards and Guides. Eastern States will do three Planning Analyses in fiscal year 1999. For the first time, the Planning Schedule includes formal evaluations of RMPs and MFPs; 16 are scheduled for fiscal year 1999.

The public is invited to comment on the planning schedule. Comments will be considered in refining priorities for the completion of new RMPs and land use plan amendments. Public notice and opportunity for participation are encouraged throughout the planning process, as required by 43 CFR 1610.2(f). The planning process begins with the publication of a Notice of Intent to initiate a new RMP or plan

amendment. Public input is particularly helpful during the scoping process and during the review of draft planning documents.

DATES: Comments on the schedule will be accepted until February 8, 1999.

ADDRESSES: Comments should be sent to the Bureau of Land Management, Attention: Ms. Brenda Williams, 1849 C Street NW (LS-1075), Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: David Williams at (202) 452-7793, or Brenda Williams at (202) 452-5045.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Central Valley Project Improvement Act, Criteria for Evaluating Water Management Plans

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: To meet the requirements of the Central Valley Project Improvement Act (CVPIA) and the Reclamation Reform Act of 1982, the Bureau of Reclamation (Reclamation) developed and published the Criteria for Evaluating Water Conservation Plans, dated April 30, 1993. In September 1996, Reclamation revised the document and renamed it the Criteria for Evaluating Water Management Plans (Criteria). These Criteria were developed based on information provided during public scoping and public review sessions held throughout Reclamation's Mid-Pacific (MP) Region. Reclamation uses these Criteria to evaluate the adequacy of all water management plans developed by Central Valley Project contractors. The Criteria were developed and the plans evaluated for the purpose of promoting the most efficient water use reasonably achievable by all MP Region contractors. Reclamation made a commitment (stated within the Criteria) to publish a notice of its draft determination of the adequacy of each contractor's water management plan in the **Federal Register** to allow the public a minimum of 30 days to comment on its preliminary determinations.

DATES: All public comments must be received by February 8, 1999.

ADDRESSES: Please mail comments to Lucille Billingsley, Bureau of Reclamation, 2800 Cottage Way, MP-410, Sacramento CA 95825.

FOR FURTHER INFORMATION CONTACT: To be placed on a mailing list for any subsequent information, please contact Lucille Billingsley at the address above, or by telephone at (916) 978-5215 (TDD 978 5608).

SUPPLEMENTARY INFORMATION: Under provision of section 3405(e) of the

CVPIA (Title 34 Pub. L. 102-575), "The Secretary (of the Interior) shall establish and administer an office on Central Valley Project water conservation best management practices that shall * * * develop criteria for evaluating the adequacy of all water conservation plans developed by project contractors, including those plans required by section 210 of the Reclamation Reform Act of 1982." Also, according to Section 3405(e)(1), these criteria will be developed " * * * with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices."

The Criteria states that all parties (districts) that contract with Reclamation for water supplies (municipal and industrial contracts over 2,000 irrigable acre-feet and agricultural contracts over 2,000 irrigable acres) will prepare water management plans which will be evaluated by Reclamation based on the following required information detailed in the steps listed below to develop, implement, monitor, and update their water management plans. The steps are:

1. Describe the district.
2. Inventory water resources available to the District.
3. Best Management Practices (BMP's) for Agricultural Contractors.
4. BMP's for Urban Contractors.
5. Exemption Process.

Sacramento County Water Agency has developed a water management plan which Reclamation has evaluated and preliminarily determined to meet the requirements of the Criteria.

Public comment on Reclamation's preliminary (i.e., draft) determinations is invited at this time. A copy of the plan will be available for review at Reclamation's MP Regional Office
