### Federal Highway Administration

#### Environmental Impact Statement; Polk County, IA

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The FHWA issues this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Polk County, Iowa.

**FOR FURTHER INFORMATION CONTACT:**

Gerald L. Kennedy, SR/WA, Environment and Realty Manager, FHWA, 105 6th Street, Ames, IA 50010-6337, (515) 233-7317. Harry S. Budd, P.E., Director, Office of Project Planning, Iowa Department of Transportation, 800 Lincoln Way, Ames, IA 50010, (515) 239-1391.

**SUPPLEMENTARY INFORMATION:**

**Electronic Access**

An electronic copy of this document may be downloaded using a modem and suitable communications software from the Government Printing Office's Electronic Bulletin Board Service at (202) 512-1661. Internet users may reach the **Federal Register's** home page at: <http://www.nara.gov/fedreg> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

**Background**

The FHWA, in cooperation with the Iowa Department of Transportation and the Polk County Public Works Department, will prepare an environmental impact statement (EIS) on the proposed extension of the M. L. King Jr. Parkway. The proposed four-lane roadway would extend from a

location approximately 460 meters south of Euclid Avenue to approximately 460 meters north of Interstate Highway 35/80. The proposed roadway would involve the construction of an interchange where the M. L. King Jr. Parkway intersects Interstate Highway 35/80. The proposed roadway extends approximately 3.4 km (2.1 miles) between the Interstate Highway 35/80 termini and the Euclid Avenue termini.

The proposed M. L. King Jr. Parkway will provide direct access to Euclid Avenue in Des Moines and is expected to reduce traffic congestion on 2nd Avenue and Merle Hay Road. If constructed, average daily traffic (ADT) on the proposed roadway is projected to approach 27,886 vehicles in Horizon Year 2020. The proposed roadway from Euclid Avenue to Interstate Highway 35/80 will complement the existing street network.

Alternatives under consideration include: (1) Taking no action; (2) using alternate travel modes; (3) improvements to Merle Hay Road and 2nd Avenue as well as the interchanges at Interstate Highway 35/80; and (4) construction of a four-lane limited access roadway from a proposed interchange at Interstate Highway 35/80 to Euclid Avenue. The "build" scenario will consider and study various alignments, interchange locations, and variations of grade.

Letters describing the proposed action and soliciting comments will be sent to Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have an interest in the proposal. Public involvement will be sought throughout the further analysis of this proposal. In addition, a public hearing will be offered. Public notice will be given of the time and place of the public meetings and public hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing.

A scoping meeting will be held for identifying significant issues to be addressed in the environmental impact statement. A number of issues were identified in a functional study, completed in 1993. The functional study identified a corridor as well as existing conditions within the corridor.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address

provided in the caption **FOR FURTHER INFORMATION CONTACT**.
