

**DEPARTMENT OF THE TREASURY****Bureau of Alcohol, Tobacco and Firearms****27 CFR Part 24**

[T.D. ATF-409]

RIN 1512-AB87

**Delegation of Authority**

**AGENCY:** Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

**ACTION:** Treasury decision, final rule.

**SUMMARY:** Authority delegation. This final rule places most ATF authorities contained in part 24, title 27 Code of Federal Regulations (CFR), with the "appropriate ATF officer" and requires that persons file documents required by part 24, title 27 Code of Federal Regulations (CFR), with the "appropriate ATF officer" or in accordance with the instructions on the ATF form. Also, this final rule removes the definitions of, and references to, specific officers subordinate to the Director. Concurrently with this Treasury Decision, ATF Order 1130.5 is being published. Through this order, the Director has delegated most of the authorities in 27 CFR part 24 to the appropriate ATF officers and specified the ATF officers with whom applications, notices and other reports, which are not ATF forms, are filed.

**EFFECTIVE DATE:** March 22, 1999.

**SUPPLEMENTARY INFORMATION:****Background**

Pursuant to Treasury Order 120-01 (formerly 221), dated June 6, 1972, the Secretary of the Treasury delegated to the Director of the Bureau of Alcohol, Tobacco and Firearms (ATF), the authority to enforce, among other laws, the provisions of chapter 51 of the Internal Revenue Code of 1986 (IRC). The Director has subsequently redelegated certain of these authorities to appropriate subordinate officers by way of various means, including by regulation, ATF delegation orders, regional directives, or similar delegation documents. As a result, to ascertain what particular officer is authorized to perform a particular function under chapter 51, each of these various delegation instruments must be consulted. Similarly, each time a delegation of authority is revoked or

redelegated, each of the delegation documents must be reviewed and amended as necessary.

ATF has determined that this multiplicity of delegation instruments complicates and hinders the task of determining which ATF officer is authorized to perform a particular function. ATF also believes these multiple delegation instruments exacerbate the administrative burden associated with maintaining up-to-date delegations, resulting in an undue delay in reflecting current authorities.

Accordingly, this final rule rescinds all authorities of the Director in part 24 that were previously delegated and places those authorities with the "appropriate ATF officer." Most of the authorities of the Director that were not previously delegated are also placed with the "appropriate ATF officer." Along with this final rule, ATF is publishing ATF Order 1130.5, Delegation Order—Delegation of the Director's Authorities in part 24, Wine, which delegates certain of these authorities to the appropriate organizational level. The effect of these changes is to consolidate all delegations of authority in part 24 into one delegation instrument. This action both simplifies the process for determining what ATF officer is authorized to perform a particular function and facilitates the updating of delegations in the future. As a result, delegations of authority will be reflected in a more timely and user-friendly manner.

In addition, this final rule also eliminates all references in the regulations that identify the ATF officer with whom an ATF form is filed. This is because ATF forms will indicate the officer with whom they must be filed. Similarly, this final rule also amends part 24 to provide that the submission of documents other than ATF forms (such as letterhead applications, notices and reports) must be filed with the "appropriate ATF officer" identified in ATF Order 1130.5. These changes will facilitate the identification of the officer with whom forms and other required submissions are filed.

This final rule also makes various technical amendments to Subpart C—Administrative and Miscellaneous Provisions of 27 CFR part 24. Specifically, a new § 24.19 is added to recognize the authority of the Director to delegate regulatory authorities in part 24 and to identify ATF Order 1130.5 as the instrument reflecting such delegations. Also, § 24.20 is amended to provide that the instructions for an ATF form identify the ATF officer with whom it must be filed.

ATF intends to make similar changes in delegations to all other parts of Title 27 of the Code of Federal Regulations through separate rulemakings. By amending the regulations part by part, rather than in one large rulemaking document and ATF Order, ATF minimizes the time expended in notifying interested parties of current delegations of authority.

**Paperwork Reduction Act**

The provisions of the Paperwork Reduction Act of 1995, Pub. L. 104-13, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR part 1320, do not apply to this final rule because there are no new or revised recordkeeping or reporting requirements.

**Regulatory Flexibility Act**

Because no notice of proposed rulemaking is required for this rule, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply. A copy of this final rule was submitted to the Chief Counsel for Advocacy of the Small Business Administration in accordance with 26 U.S.C. 7805(f). No comments were received.

**Executive Order 12866**

It has been determined that this rule is not a significant regulatory action because it will not: (1) Have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities; (2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; (3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

**Administrative Procedure Act**

Because this final rule merely makes technical amendments and conforming changes to improve the clarity of the regulations, it is unnecessary to issue this final rule with notice and public procedure under 5 U.S.C. 553(b). Similarly it is unnecessary to subject this final rule to the effective date limitation of 5 U.S.C. 553(d).

**Radiation Exposure Compensation Act: Evidentiary Requirements; Definitions; and Number of Times Claims May Be Filed**

**AGENCY:** Civil Division, Department of Justice.

**ACTION:** Final rule.

**SUMMARY:** The Department of Justice ("the Department") amends its existing regulations implementing the Radiation Exposure Compensation Act to: allow claimants to submit affidavits or declarations in support of a claim to establish smoking and alcohol consumption histories where no other records exist; allow the use of pathology reports of tissue biopsies as additional means by which claimants can present evidence of a compensable non-malignant respiratory disease; amend the definitions of "smoker" and "non-smoker"; include *in situ* lung cancers under the definition of primary cancers of the lung; and allow claimants who have filed claims prior to the implementation of these regulations and have been denied compensation to file another three times.

**DATES:** Effective date: April 21, 1999. This final rule will apply to all claims pending with the Radiation Exposure Compensation Act Program ("RECA Program") as of this date.

**SUPPLEMENTARY INFORMATION:****Background**

On May 23, 1997, the Attorney General published a notice of proposed rulemaking in the **Federal Register**, 62 FR 28393 (1997), setting forth proposed amendments to the regulations implementing the Radiation Exposure Compensation Act, Pub. L. 101-426, 104 Stat. 920 (1990) (codified as amended at 42 U.S.C. 2210 note) ("RECA" or "Act"). Comments were received over a period of 30 days ending on July 22, 1997. In response to several requests from the public for additional time, the comment period was reopened on August 29, 1997, for an additional 30-day period ending on September 29, 1997. The Department of Justice received 31

letters, each containing one or more comments regarding the proposed amendments. Commenters included both interested individuals and organizations. Most of the comments were positive, applauding the proposed changes and encouraging their swift implementation.

The Department carefully reviewed all of the comments, several of which resulted in changes to the proposed rule. Specifically, the final rule will not introduce standards for the use of high resolution computed tomography ("HRCT") reports, which were included in § 79.36(a)(ii)(A)(2) of the proposed rule. The Department received many substantive comments on the proposed use of HRCT reports as a means by which claimants can present evidence of a compensable non-malignant respiratory disease. In order to respond to those comments, the Department engaged in extensive research and consultation. Presently, there is no consensus in the medical community for standardized criteria for the use of HRCT reports in the diagnosis of non-malignant respiratory diseases. Accordingly, as soon as the Department, in consultation with its designated medical and scientific experts, is able to identify recognized standards for the use of HRCT reports, the Department will implement appropriate regulations.

Furthermore, the final rule amends the definitions of "heavy smoker" and "smoker" to exclude, and the definition of "non-smoker" to include, claimants who stopped smoking at least fifteen years prior to the date of diagnosis of disease. These definitions apply to claimants diagnosed with a compensable non-malignant respiratory disease as well as those diagnosed with lung cancer, as originally proposed. The Department is convinced that the evidence supports this approach.

**Discussion of Changes and Comments**

Following are summaries and discussions of the comments, which have been grouped together according to their similarity. Minor or technical issues are not discussed.

In some cases, commenters suggested that the Department incorporate certain regulatory provisions that would modify statutory requirements relating to the criteria for compensation. Section 5 of the RECA authorizes claims only by individuals employed in uranium mines in particular states. Accordingly, the implementing regulations limit compensation to individuals employed in uranium mines in those states and exclude those individuals employed in uranium mines elsewhere as well as those individuals employed in uranium
