

governments, in the aggregate of \$100 million (adjusted annually for inflation). If so, the Act requires that a reasonable number of regulatory alternatives be considered, and that from those alternatives, the least costly, most cost-effective, or least burdensome alternative that achieves the objective of the rule be selected. No state, local, or tribal government entities will be affected by this rule, so this rule will not result in annual or aggregate costs of \$100 million or more. Therefore, the Coast Guard is exempt from any further regulatory requirements under the Unfunded Mandates Act.

### Environment

The Coast Guard considered the environmental impact of this proposed rule and concluded that under figure 2-1, paragraph 34(g), of Commandant Instruction M16475.1C, this proposed rule is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the docket for inspection or copying where indicated under ADDRESSES.

Persons wanting acknowledgment of receipt of comments should enclose stamped, self-addressed postcards or envelopes.

The Coast Guard will consider all comments received during the comment period. It may change this proposed rule in view of the comments.

The Coast Guard plans no public hearing. Persons may request a public hearing by writing to the Waterways Oversight Branch at the address under ADDRESSES. The request should include the reasons why a hearing would be beneficial. If it determines that the opportunity for oral presentations will aid this rulemaking, the Coast Guard will hold a public hearing at a time and place announced by a later notice in the **Federal Register**.

### Background and Purpose

The city of Albany sponsors this annual festival which includes a water ski show, speedboat demonstration, and other marine activities on the Hudson River. The sponsor expects no spectator craft for this event. The regulated area for this festival encompasses all waters of the Hudson River from the Dunn Memorial Bridge (river mile 145.4) to the Albany Rensselaer Swing Bridge (river mile 146.2). The proposed regulation is effective annually from 12 p.m. until 4 p.m. on the third Saturday and Sunday of July. The proposed regulation prohibits all vessels, swimmers, and personal watercraft not participating in the event from transiting this portion of the Hudson River during the festival. It is needed to protect boaters from the hazards associated with a water ski show, speedboat demonstration, and other marine activities being held in the area. Marine traffic will be able to transit through the regulated area for 30 minutes during the event. Public notifications for the transit time will be made prior to the event via the Local Notice to Mariners and marine information broadcasts.

### Discussion of Proposed Rule

The proposed special local regulation is for the annual Fleet's Albany Riverfest held on the Hudson River in the vicinity of Albany, New York. This event is held annually on the third Saturday and Sunday of July. This rule is being proposed to provide for the safety of life on navigable waters during the event, to give the marine community the opportunity to comment on the regulated area, and to decrease the amount of annual paperwork required for this event.

### Regulatory Evaluation

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. It has not been reviewed by the Office of Management and Budget under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979).

The Coast Guard expects the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. Although this regulation prevents traffic from transiting a portion of the Hudson River during the event, the effect of this regulation will not be significant for several reasons: the limited duration that the regulated area will be in effect, marine traffic will be able to transit through the regulated area for 30 minutes during the event, the Port Commissioner's office for the Port of Albany has stated there is infrequent commercial traffic north of the Dunn Memorial Bridge (river mile 145.4), commercial vessels can plan their transits up the river around the time the regulated area is in effect as they will have advance notice of the event, it is an annual event with local support, and advance notifications will be made to the local maritime community by the Local Notice to Mariners and marine information broadcasts.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Coast Guard considers whether this proposed rule, if adopted, will have a significant economic impact on a substantial number of small entities. "Small entities" include small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and

governmental jurisdictions with populations of less than 50,000.

For the reasons stated in the Regulatory Evaluation section above, the Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule, if adopted, will not have a significant economic impact on a substantial number of small entities. If, however, you think that your business or organization qualifies as a small entity and that this proposed rule will have a significant economic impact on your business or organization, please submit a comment (see ADDRESSES) explaining why you think it qualifies and in what way and to what degree this proposed rule will economically affect it.

### Collection of Information

This proposed rule does not provide for a collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

### Federalism

The Coast Guard has analyzed this proposed rule under the principles and criteria contained in Executive Order 12612 and has determined that this proposed rule does not have sufficient implications for federalism to warrant the preparation of a Federalism Assessment.

### Unfunded Mandates

Under the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4), the Coast Guard must consider whether this rule will result in an annual expenditure by state, local, and tribal governments, in the aggregate of \$100 million (adjusted annually for inflation). If so, the Act requires that a reasonable number of regulatory alternatives be considered, and that from those alternatives, the least costly, most cost-effective, or least burdensome alternative that achieves the objective of the rule be selected. No state, local, or tribal government entities will be affected by this rule, so this rule will not result in annual or aggregate cost of \$100 million or more. Therefore, the Coast Guard is exempt from any further regulatory requirements under the Unfunded Mandates Act.

### Environment

The Coast Guard considered the environmental impact of this proposed rule and concluded that under figure 2-1, paragraph 34(g), of Commandant Instruction M16475.1C, this proposed rule is categorically excluded from further environmental documentation. A "Categorical Exclusion Determination" is available in the

docket for inspection or copying where indicated under ADDRESSES.
