NUCLEAR REGULATORY COMMISSION

Regulatory Guide; Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the Commission's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.179, "Standard Format and Content of License Termination Plans for Nuclear Power Reactors," has been developed to provide guidance on developing license termination plans for nuclear power reactor licensees who wish to terminate their licenses and release their sites.

Comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time. Written comments may be submitted to the Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. NUCLEAR REGULATORY COMMISSION

Regulatory Guides; Withdrawal

The Nuclear Regulatory Commission is withdrawing Regulatory Guide 10.10, "Guide for the Preparation of Applications for Radiation Safety Evaluation and Registration of Devices Containing Byproduct Material" (issued March 1987), and Regulatory Guide 10.11, "Guide for the Preparation of Applications for Radiation Safety Evaluation and Registration of Sealed Sources Containing Byproduct Material" (issued June 1987).

The information in Regulatory Guides 10.10 and 10.11 has been updated and incorporated into Volume 3 of NUREG–1556, "Consolidated Guidance About Materials Licenses; Applications for Sealed Source and Device Evaluation and Registration," which was issued in July 1998. Since there is no longer a need for Regulatory Guides 10.10 and 10.11, they have been withdrawn. However, the withdrawal of Regulatory Guides 10.10 and 10.11 does not alter any prior or existing licensing commitments based on their use.

Comments and suggestions in connection with both guides currently being developed and published guides are encouraged at any time. Written comments may be submitted to the Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.
