

New findings on reopening reveal that sales, production and employment at Pluma, Incorporated, Rocky Mount, Virginia will decline to zero with the plant closure beginning April 1999. Company imports of fleecewear increased in quantity from 1997 to 1998.

### Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with articles produced by the subject firm contributed importantly to the decline in sales and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

"All workers of Pluma, Incorporated, Rocky Mount, Virginia, who became totally or partially separated from employment on or after October 15, 1997, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed in Washington, DC this 9th day of February 1999.

#### Rockwell Semiconductor Systems—Colorado Springs, Inc. Including Workers of Guards-Mark, Inc., Colorado Springs, CO; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on January 8, 1999, applicable to all workers of Rockwell Semiconductor Systems—Colorado Springs, Inc. located in Colorado Springs, Colorado. The notice was published in the **Federal Register** on January 29, 1999 (64 FR 4712).

Based on these findings, the Department is amending the certification to include leased workers from Guard-Mark, Inc., Colorado Springs, Colorado.

The intent of the Department's certification is to include all workers of Rockwell Semiconductor Systems—Colorado Springs, Inc. adversely affected by imports.

The amended notice applicable to TA-W-35,192 is hereby issued as follows:

All workers of Rockwell Semiconductor Systems—Colorado Springs, Inc. and leased workers of Guards-Mark, Inc., Colorado Springs, Colorado that provided security detail for Rockwell Semiconductor Systems—Colorado Springs, Inc., Colorado Springs, Colorado who became totally or partially separated from employment on or after October 28, 1997 through January 8, 2001 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Alien labor certification programs administered by the Employment and Training Administration (ETA) of the Department of Labor (DOL or Department) require State Employment Security Agencies (SESAs) to initially process applications for per permanent and temporary labor certifications filed by U.S. employers on behalf of alien workers seeking to be employed in the U.S. SESAs are also responsible for issuing prevailing wage determinations, reviewing employer-provided wage surveys or other source data, conducting

housing inspections of facilities offered to migrant and seasonal workers, and conducting and monitoring recruitment activities seeking qualified U.S. workers for the jobs employers are attempting to fill with foreign workers. The SESAs perform these functions under a reimbursable grant that is awarded annually. The information pertaining to these functions is collected on the Form ETA 9037 and will be used by Departmental staff to manage alien labor certification programs in the SESAs. The Department will be able to monitor the number of applications that the State has received, processed, and forwarded to ETA Regional offices, and the number of prevailing wage determinations issued to employers under the permanent and temporary labor certification programs, as well as the H-1B program for nonimmigrant professionals in specialty occupations. The information on workload will be used for formulating budget estimates for both state and Federal workloads, and for monitoring a State's performance against the Grant Statement of Work and Work Plan. Without such information, the budget workload figures will be estimates and the allocation of funding to the SESAs will not reflect the true workload in a State.

#### Availability of Funds and Solicitation for Grant Applications in School-to-Work Opportunities; State and Local Systems

**AGENCIES:** Employment and Training Administration, Department of Labor.

**ACTION:** Notice of availability of funds and solicitation for grant applications (SGA) providing work-based learning opportunities in State and local School-to-Work (STW) systems through two distinct efforts undertaken by either: (1) national industry/trade groups or associations/coalitions with national memberships or participation; or (2) local/regional business-led consortia.

**SUMMARY:** This notice contains all of the necessary information and forms needed to apply for grant funding. The Departments of Labor and Education jointly invite proposals for up to 10 new awards in FY 1998, as authorized under Section 403 of the School-to-Work Opportunities Act of 1994 (the Act). These awards will provide support to industry/trade groups or associations/coalitions with national memberships or participation and to local/regional business-led consortia to undertake outreach, technical assistance, and other activities to increase the number and capacity of employers to participate in STW systems. The Departments believe that a targeted approach to employer involvement in STW through industry and trade groups or associations/coalitions with national memberships/participation and through local/regional business-led consortia has the potential to help develop a critical mass of business partners. As a result of the products developed and activities carried out, awardees will be asked to provide clear, quantifiable evidence that they are significantly increasing the numbers of employers participating in STW and increasing the number of work-based learning opportunities for students who are participating in STW activities. The Departments made four awards to distinct industry groups (retail, manufacturing, information technology and utilities) in FY 1997.

**DATES:** Applications will be accepted commencing February 18, 1999. The closing date for receipt of applications is April 5, 1999, at 4 P.M., (Eastern Time) at the address below.

##### II. Background

The School-to-Work Opportunities Act was signed into law by President Clinton on May 4, 1994. Jointly administered by the Departments of Labor and Education, this Act is a new approach to education and workforce development that seeks to better prepare all American youth for careers in high-skill, high-wage jobs and to strengthen the linkages between what is learned in school with work. Under the Act, venture capital grants are provided to States and local communities to undertake systemic reform to increase the likelihood that youth will successfully transition from school into careers or post-secondary institutions. Grants are for a limited duration with the Federal investment declining over time. These investments are intended to support the one-time costs of States and local communities to restructure learning experiences for all students. Currently all 50 states, the District of Columbia and Puerto Rico are receiving
