### Bureau of the Census

[Docket No. 990209046-9046-01]

### Annual Surveys in Manufacturing Area

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Notice of Determination.

**SUMMARY:** In conformity with Title 13, United States Code (sections 61, 81, 182, 224, and 225), I have determined that annual data collected from the surveys listed below are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry. The data derived from these surveys, most of which have been conducted for many years, are not publicly available from nongovernmental or other governmental sources.

**FOR FURTHER INFORMATION CONTACT:** William G. Bostic, Jr., Chief, Manufacturing and Construction Division, on (301) 457-4593.

**SUPPLEMENTARY INFORMATION:** The Census Bureau is authorized to take surveys necessary to furnish current data on the subjects covered by the major censuses authorized by Title 13, United States Code. These surveys will provide continuing and timely national statistical data on manufacturing for the period between economic censuses. The next economic censuses will be conducted for the year 2002. The data collected in these surveys will be within the general scope and nature of those

inquiries covered in the economic censuses.

### Current Industrial Reports

Most of the following commodity or product surveys provide data on shipments or production; some provide data on stocks, unfilled orders, orders booked, consumption, and so forth. Reports will be required of all, or a sample of, establishments engaged in the production of the items covered by the following list of surveys.

In 1998, the Census Bureau converted the Current Industrial Reports survey form names to reflect the switch from the old U.S. Standard Industrial Classification (SIC) system to the new North American Industry Classification System (NAICS). For example, the MA22F survey under the old SIC system is the MA313F survey under NAICS.

In accordance with the Paperwork Reduction Act (PRA), Public Law 104-13, the Office of Management and Budget (OMB) has approved these surveys under OMB Control Numbers 0607-0206, 0607-0392, 0607-0393, 0607-0395, 0607-0476 and 0607-0776. We will provide copies of the forms upon written request to the Director, Bureau of the Census, Washington, DC 20233-0001.

MQ333W .....	MQ35W	Metalworking Machinery.
MQ335C .....	MQ36C	Fluorescent Lamp Ballasts.

### Annual Survey of Manufactures

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, capital expenditures, cost of materials consumed, supplemental labor costs, and so forth. This survey, while conducted on a sample basis, covers all manufacturing industries, including data on plants under construction but not yet in operation.

In accordance with the PRA, Public Law 104-13, OMB has approved this survey under OMB Control Number 0607-0449. We will provide copies of the form upon written request to the Director, Bureau of the Census, Washington, DC 20233-0001.

### Survey of Industrial Research and Development

The Survey of Industrial Research and Development measures spending on research and development activities in private U.S. businesses. The Census Bureau collects and compiles this information with funding from the National Science Foundation (NSF). The NSF publishes the results in its publication series. Four data items in the survey provide interim statistics collected in the Census Bureau's economic censuses. These items (total company sales, total company employment, total expenditures, and

federally-funded expenditures for research and development conducted within the company) are collected on a mandatory basis under the authority of Title 13. Responses to all other data collected for the NSF are voluntary.

In accordance with the PRA, Public Law 104-13, OMB has approved this survey under OMB Control Number 3145-0027. We will provide copies of the form upon written request to the Director, Bureau of the Census, Washington, DC 20233-0001.

### Survey of Plant Capacity Utilization

The Survey of Plant Capacity Utilization is designed to measure the use of industrial capacity. The survey collects information on actual output and estimates of potential output in terms of value of production. These data are the basis for calculating rates of utilization of full production capability and use of production capability under national emergency conditions.

In accordance with the PRA, Public Law 104-13, OMB has approved this survey under OMB Control Number 0607-0175. We will provide copies of the form upon written request to the Director, Bureau of the Census, Washington, DC 20233-0001. I have, therefore, directed that these annual surveys be conducted for the purpose of collecting the data as described.

Dated: February 8, 1999.
