

*Thailand*

Imports covered by this order are malleable cast iron pipe fittings, advanced in condition by operations or processes subsequent to the casting process other than with grooves, or not advanced, of cast iron other than alloy cast iron, as provided for in items 610.7000 and 610.7400 of the TSUSA. The products covered by this order are currently classified under the Harmonized Trade Schedule ("HTS") as item number 7307.19.90.30, 7307.19.90.60 and 7307.19.90.80.

The HTS item numbers for these antidumping duty orders are provided for convenience and customs purposes. The written description remains dispositive.

**Determination**

As a result of the determination by the Commission that revocation of these antidumping duty orders is not likely to lead to continuation or recurrence of material injury to an industry in the United States, the Department, pursuant to section 751(d)(2) of the Act and 19 CFR 351.222(i)(1), is revoking the antidumping duty orders on malleable cast iron pipe fittings from Brazil, Taiwan, and Thailand. Pursuant to section 751(c)(6)(A)(iv) of the Act and 19 CFR 351.222(i)(2)(ii), these revocations are effective January 1, 2000. The Department will instruct the U.S. Customs Service to discontinue the suspension of liquidation and collection of cash deposits rates on entries of the subject merchandise entered or withdrawn from warehouse on or after January 1, 2000. The Department will complete any pending administrative reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

Dated: February 22, 2000.

**[A-844-802]**

**Uranium From Uzbekistan; Preliminary Results of Sunset Review of Suspended Antidumping Duty Investigation**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of full sunset review: Uranium from Uzbekistan.

**SUMMARY:** On August 2, 1999, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty suspension agreement on uranium from Uzbekistan (64 FR 41915) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate filed on behalf of domestic and respondent interested parties, the Department determined to conduct a full review. As a result of this review, the Department preliminarily finds that revocation of the antidumping duty suspension agreement would likely lead to continuation or recurrence of dumping at the levels indicated in the Preliminary Results of Review section of this notice.

**EFFECTIVE DATE:** February 28, 2000.

**FOR FURTHER INFORMATION CONTACT:** Kathryn B. McCormick or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230; telephone: (202) 482-1930 or (202) 482-1560, respectively.

**SUPPLEMENTARY INFORMATION:****Statute and Regulations**

This review is being conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("Sunset Regulations") and in CFR Part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98.3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*; Policy Bulletin, 63 FR 18871

(April 16, 1998) ("Sunset Policy Bulletin").

**Background**

On August 2, 1999, the Department initiated a sunset review of the antidumping duty suspension agreement on uranium from Uzbekistan (64 FR 41915), pursuant to section 751(c) of the Act. The Department received Notices of Intent to Participate on behalf of domestic interested parties, the Ad Hoc Committee,<sup>1</sup> USEC, Inc. and its subsidiary, the United States Enrichment Corporation (collectively, "USEC"), and Paper, Allied-Industrial, Chemical and Energy Workers International Union, AFL-CIO ("PACE"), within the applicable deadline (August 17, 1999) specified in section 351.218(d)(1)(i) of the *Sunset Regulations*. On August 27, 1999, we received a notice of intent to participate on behalf of AHUG.<sup>2</sup> The Ad Hoc Committee claimed interested-party status under section 771(9)(C) of the Act, as the only U.S. producers of a domestic like product; AHUG claimed interested-party status as industrial users of uranium; <sup>3</sup> PACE claimed interested-party status as a union representing workers of two domestic gaseous diffusion plants that produce uranium products.

The Ad Hoc Committee claims that, along with the Oil, Chemical and Atomic Workers International Union, it was the original petitioner in the suspended antidumping investigation and resulting suspension agreement under review (see September 1, 1999, Substantive Response of the Ad Hoc Committee at 4). AHUG did not submit a summary of its past participation in the proceeding.

On September 1, 1999, the Government of Uzbekistan ("GOU") and Navoi Mining and Metallurgical Combinat ("Navoi") notified the Department of their intent to participate in the review. GOU is an interested party pursuant to section 771(9)(B) of the Act as the government of a country in which subject merchandise is produced and exported; Navoi is an

<sup>1</sup> The Ad Hoc Committee consists of Rio Algom Mining Corporation, Uranium Resources Inc., and Cotter Corporation.

<sup>2</sup> AHUG consists of Ameren UE, Baltimore Gas and Electric Co., Carolina Power and Light Co., Commonwealth Edison Co., Consumers Energy, Duke Power Co., Entergy Services, Inc., FirstEnergy Nuclear Operating Co., Florida Power and Light Co., Northern States Power Co., PECO Energy Co., Southern Nuclear Operating Co., Texas Utilities Electric Co., and Virginia Power.

<sup>3</sup> The Department notes that, although industrial users are allowed to participate in sunset reviews, they are not considered "interested parties" as defined in the statute and regulations. See section 771(9) and 777(h) of the Act, and 19 CFR 351.32.

interested party pursuant to section 771(9)(A) of the Act as a foreign producer and exporter of subject merchandise. GOU and Navoi note that they actively participated in the proceedings in July 1992, once they became aware of the action brought by the United States against uranium from Uzbekistan.

On September 1, 1999, we received complete substantive responses from the above domestic and respondent interested parties, and industrial users, with the exception of USEC and PACE,<sup>4</sup> within the 30-day deadline specified in the *Sunset Regulations* under section 351.218(d)(3)(i). On September 2, 1999, we received a request for an extension to file rebuttal comments from the AHUG.<sup>5</sup> Pursuant to 19 CFR 351.302(b) (1999), the Department extended the deadline for all participants eligible to file rebuttal comments until September 13, 1999.<sup>6</sup> On September 14, 1999, pursuant to 19 CFR 351.218(e)(1)(ii)(A), the Department determined to conduct a full (240-day) sunset review of this suspension agreement.<sup>7</sup>

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995). Accordingly, on November 22, 1999, the Department determined that the sunset review of the uranium investigation is extraordinarily complicated, and extended the time limit for completion of the preliminary results of this review until not later than February 18, 2000, in accordance with section 751(c)(5)(B) of the Act.<sup>8</sup>

### Scope of Review

The merchandise covered in the June 3, 1992, preliminary determination of the suspended investigation includes natural uranium in the form of uranium ores and concentrates; natural uranium metal and natural uranium compounds; alloys, dispersions (including cermets), ceramic products, and mixtures

containing natural uranium or natural uranium compound; uranium enriched in U<sup>235</sup> and its compounds; alloys dispersions (including cermets), ceramic products and mixtures containing uranium enriched in U<sup>235</sup> or compounds or uranium enriched in U<sup>235</sup>; and any other forms of uranium within the same class or kind. According to the Department's preliminary determination, the uranium subject to these investigations is provided for under subheadings 2612.10.00.00, 2844.10.10.00, 2844.10.20.10, 2844.10.20.25, 2844.10.20.50, 2844.10.20.55, 2844.10.50, 2844.20.00.10, 2844.20.00.20, 2844.20.00.30, and 2844.20.00.50 of the Harmonized Tariff Schedule of the United States ("HTSUS").<sup>9</sup> In addition, the Department preliminarily determined that highly-enriched uranium ("HEU") is not covered within the scope of the investigation, and that the subject merchandise constitutes a single class or kind of merchandise.

On October 30, 1992, the Department issued a suspension of the antidumping duty investigation of uranium from Uzbekistan and an amendment of the preliminary determination.<sup>10</sup> The suspension agreement (the "Agreement") provided that uranium ore from Uzbekistan that is milled into U<sub>3</sub>O<sub>8</sub> and/or converted into UF<sub>6</sub> in another country prior to direct and/or indirect importation into the United States is considered uranium from Uzbekistan and is subject to the terms of the Agreement.<sup>11</sup> Further, uranium enriched in U<sup>235</sup> in another country prior to direct and/or indirect importation into the United States is not considered uranium from Uzbekistan and is not subject to the terms of this Agreement.<sup>12</sup> In this Agreement, imports of uranium ores and concentrates, natural uranium compounds, and all forms of enriched uranium are classifiable under HTSUS subheadings 2612.10.00, 2844.10.20, 2844.20.00, respectively. Imports of natural uranium metal and forms of natural uranium other than compounds

are classifiable under HTSUS subheadings 2844.10.10 and 2844.44.10.50. Although the above HTSUS subheadings are provided for convenience and customs purposes, the written description remains dispositive.

The Department determined in the amendment that HEU and any other forms of uranium within the same class or kind are included in the scope of the investigations.<sup>13</sup>

### Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this sunset review are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Robert S. LaRussa, Assistant Secretary for Import Administration, dated February 18, 2000, which is hereby adopted and incorporated by reference into this notice. The issues discussed in the attached Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the suspension investigation terminated. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in B-099.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at [www.ita.doc.gov/import\\_admin/records/frn/](http://www.ita.doc.gov/import_admin/records/frn/), under the heading "Uzbekistan." The paper copy and electronic version of the Decision Memo are identical in content.

### Preliminary Results of Review

We determine that revocation of the antidumping duty suspension agreement on uranium from Uzbekistan would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margin:

Manufacturer/exporters	Margin (percent)
All Uzbek manufacturers/exporters .....	115.82

Any interested party may request a hearing within 30 days of publication of this notice in accordance with 19 CFR 351.310(c). Any hearing, if requested, will be held on April 18, 2000, in accordance with 19 CFR 351.310(d). Interested parties may submit case briefs no later than April 10, 2000, in accordance with 19 CFR 351.309(c)(1)(i). Rebuttal briefs, which

#### Uranium From Russia; Preliminary Results of Sunset Review of Suspended Antidumping Duty Investigation

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of full sunset review: Uranium from Russia.

**SUMMARY:** On August 2, 1999, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty suspension agreement on uranium from Russia (64 FR 41915) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate filed on behalf of domestic and respondent interested parties, the Department determined to conduct a full review. As a result of this review, the Department preliminarily finds that revocation of the antidumping duty suspension agreement would likely lead to continuation or recurrence of dumping at the levels indicated in the Preliminary Results of Review section of this notice.

**EFFECTIVE DATE:** February 28, 2000.

**FOR FURTHER INFORMATION CONTACT:** Kathryn B. McCormick or Melissa G. Skinner, Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230; telephone: (202) 482-1930 or (202) 482-1560, respectively.

**SUPPLEMENTARY INFORMATION:**

## Statute and Regulations

This review is being conducted pursuant to sections 751(c) and 752 of the Act. The Department's procedures for the conduct of sunset reviews are set forth in *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) ("Sunset Regulations") and in CFR Part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98.3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin*, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

## Background

On August 2, 1999, the Department initiated a sunset review of the antidumping duty suspension agreement on uranium from Russia (64 FR 41915), pursuant to section 751(c) of the Act. The Department received Notices of Intent to Participate on behalf of domestic interested parties, the Ad Hoc Committee,<sup>1</sup> USEC, Inc. and its subsidiary, the United States Enrichment Corporation (collectively, "USEC"), and Paper, Allied-Industrial, Chemical and Energy Workers International Union, AFL-CIO ("PACE"), within the applicable deadline (August 17, 1999) specified in section 351.218(d)(1)(i) of the *Sunset Regulations*. On August 27, 1999, we received a notice of intent to participate on behalf of AHUG.<sup>2</sup> The Ad Hoc Committee claimed interested-party status under section 771(9)(C) of the Act, as the only U.S. producers of a domestic like product; the AHUG claimed interested-party status as industrial users of uranium; <sup>3</sup> PACE claimed interested-party status as a union representing workers of two domestic gaseous diffusion plants that produce uranium products.

<sup>1</sup> The Ad Hoc Committee consists of Rio Algom Mining Corporation, Uranium Resources Inc., and Cotter Corporation.

<sup>2</sup> The AHUG consists of Ameren UE, Baltimore Gas and Electric Co., Carolina Power and Light Co., Commonwealth Edison Co., Consumers Energy, Duke Power Co., Entergy Services, Inc., FirstEnergy Nuclear Operating Co., Florida Power and Light Co., Northern States Power Co., PECO Energy Co., Southern Nuclear Operating Co., Texas Utilities Electric Co., and Virginia Power.

<sup>3</sup> The Department notes that, although industrial users are allowed to participate in sunset reviews, they are not considered "interested parties" as defined in the statute and regulations. See section 771(9) and 771(h) of the Act, and 19 CFR 351.312.

The Ad Hoc Committee claims that, along with the Oil, Chemical and Atomic Workers International Union, it was the original petitioner in the suspended antidumping investigation and resulting suspension agreement under review (see September 1, 1999, Substantive Response of the Ad Hoc Committee at 4).

USEC notes that it was created, in 1993, as a U.S. government-owned company to operate the enrichment facilities then owned by the Department of Energy ("DOE") and privatized in July 1998. While USEC was not in existence when the petition in the original proceeding was filed in 1991, the DOE participated in the original proceeding and provided comments regarding the implementation of the original Russian suspension agreement. After its creation, USEC commented on subsequent amendments to the agreement and, on March 13, 1998, requested that the Department determine that enriched uranium derived from the re-enrichment of depleted uranium tails in Russia should be treated as Russian-origin material covered by the Russian suspension agreement (see September 1, 1999, Substantive Response of USEC at 7). On August 6, 1999, USEC requested that the Department issue a scope ruling to clarify that enriched uranium located in Kazakhstan at the time of the dissolution of the Soviet Union is within the scope of the Russian suspension agreement. *Id.*

AHUG did not submit a summary of their past participation in the proceedings.

On September 1, 1999, the Ministry of the Russian Federation for Atomic Energy ("Minatom"), AO Technsnabexport, ("Tenex"), and Globe Nuclear Services and Supply GNSS, Limited ("GNSS") (collectively, "respondent interested parties") notified the Department of their intent to participate in the review. Minatom is an interested party pursuant to section 771(9)(B) of the Act, as the government of a country in which subject merchandise is produced and exported; Tenex claims interested-party status pursuant to section 771(9)(A) of the Act as the exclusive producer and exporter; and GNSS imports into the United States from Russia.

Minatom and Tenex claim that they have been involved in all aspects of the suspended investigation through their compliance with the terms of the suspension agreement and through ongoing consultations with the United States. GNSS claims that it has participated as an importer by reporting sales of the subject merchandise under
