

2. Environmental Management Program

The Office of Environmental Management (EM) is the Department of Energy (DOE) organization responsible for the cleanup of the DOE sites contaminated during operations during the cold war. The National Energy Technology Laboratory (NETL) provides technical and management support to the DOE EM and specifically implements activities in support of the EM Office of Science and Technology (OST). The mission of the OST is to manage and direct a national, solution-oriented program that provides scientific foundation, new approaches, and new technologies to bring about significant reductions in risk, cost, and schedule in completing the EM cleanup mission. NETL's role is to implement programs to foster private sector companies to develop, demonstrate, and deploy cost-effective technologies that will be used to solve problems at multiple DOE sites. The private sector includes large and small businesses, private research institutes, and colleges and universities. To implement the overall science and technology program, EM has established "Focus Areas" to coordinate and focus technology development activities on the major problem areas that exist at the DOE sites. Specific areas of interest are defined by each of the Focus Areas and can be identified through the information sources provided in the solicitation. Significant areas of emphasis in the near term are defined in the solicitation.

Issued in Morgantown, WV, on December 22, 1999.

Randolph L. Kesling,

Director, Acquisition and Assistance Division, National Energy Technology Laboratory.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2077-00]

USGen New England, Inc.; Notice Modifying a Restricted Service List for Comments on a Programmatic Agreement for Managing Properties Included in or Eligible for Inclusion in the National Register of Historic Places

January 3, 2000.

On July 14, 1998, the Federal Energy Regulatory Commission (Commission) issued a notice for the Fifteen Mile Falls Project (FERC No. 2077) proposing to establish a restricted service list for the purpose of developing and executing a Programmatic Agreement for managing properties included in or eligible for inclusion in the National Register of Historic Places. The Fifteen Mile Falls Project is located on the Connecticut River, in Grafton County, New Hampshire, and Caledonia County, Vermont. USGen New England, Inc. is the licensee.

Rule 2010 of the Commission's Rules of Practice and Procedure provides that, to eliminate unnecessary expense or improve administrative efficiency, the Secretary may establish a restricted service list for a particular phase or issue in a proceeding.¹ The restricted service list should contain the names of persons on the service list who, in the judgment of the decisional authority establishing the list, are active participants with respect to the phase or issue in the proceeding for which the list is established.

The following addition is made to the restricted service list notice issued on July 14, 1998, for Project No. 2077:

Mr. John Moody, R.F.D., Sharon, VT 05065.

The address for Ms. Giovanna Peebles, who is included on the restricted service list for Project No. 2077, has changed. Delete "Division of Historic Preservation, 135 State Street, Drawer 33, Montpelier, VT 05633-1201" and replace with "Division for Historic Preservation, National Life

¹ 18 CFR 385-2010.
