Number: Record of Arrivals and Departures of Vessels at Marine Terminals, ENG Form 3926, OMB Number 0710-0005.

Needs and Uses: The Corps of Engineers uses ENG Form 3926, as a quality control instrument by comparing the data collected on the Corps' Vessel Operation Report (OMB Control Number 0710-0006) with that collected on the ENG Form 3926. The information is voluntarily submitted by the respondents to assist the Waterborne Commerce Statistics Center (WCSC) in the identification of vessel operators who fail to report significant vessel moves and tonnage.

Affected Public: Business or other for profit.

Annual Burden Hours: 2,500.

Number of Respondents: 450.

Responses Per Respondent: 12.

Average Burden Per Response: 5 minutes.

Frequency: Voluntary.

SUPPLEMENTARY INFORMATION: The information is invaluable in documenting the movement of petroleum products out of Valdez, Alaska. Without the information furnished on the ENG Form 3926 at least 50,000,000 tons of petroleum products would go unreported each

year. This situation exists because there are many vessel operating companies moving crude petroleum from Valdez to points south.

Cancellation of the Notice of Intent To Prepare a Draft Supplement to the Environmental Impact Statement (D-SEIS) for the Kennedy Bechara Segment of the Rio Puerto Nuevo Flood Control Project in Guaynabo and San Juan, Puerto Rico

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Cancellation notice.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers hereby cancels its Notice of Intent to prepare a Draft Supplement to the Environmental Impact Statement for the Rio Puerto Nuevo Flood Control Project, Kennedy-Bechara segment, as published in the **Federal Register** (Vol. 64, No. 174), Thursday, September 9, 1999, page 48995. Additional information concerning the cancellation is contained in the Supplementary Information paragraph indicated below.

FOR FURTHER INFORMATION CONTACT: Questions can be forwarded to Mr. Elmar G. Kurzbach, Environmental Branch, Planning Division, Jacksonville District, Corps of Engineers, Post Office Box 4970, Jacksonville, Florida 32232-0019, Phone: (904)-232-2325.

SUPPLEMENTARY INFORMATION: The Notice is cancelled because, after scoping for the proposed Supplement was completed, no new issues were raised; no request was received for public meetings, and comments were received only from environmental and resource agencies. All substantive comments made reference primarily to adverse impacts on wetlands of the flood mitigation alternatives then under consideration, all of which would have used a wetland (mangrove) parcel for disposal of excavated material to a greater or lesser degree. Federal and Commonwealth of Puerto Rico resource agencies, including the project co-sponsor, Department of Natural and Environmental Resources, stated that using remnant wetlands for disposal of excavated material was unacceptable. Consequently, the preferred alternative
