**[OPP-00650; FRL-6499-6]**

**Notice of Availability of Regional Environmental Stewardship Program Grants**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA is announcing the availability of approximately \$498 thousand in fiscal year 2000 grant/cooperative agreement funds under section 20 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, (the Act), for grants to States and federally recognized Native

American Tribes for research, public education, training, monitoring, demonstrations, and studies. For convenience, the term "State" in this notice refers to all eligible applicants.

**DATES:** In order to be considered for funding during the FY 00 award cycle, all applications must be received by the appropriate EPA regional office on or before May 22, 2000. EPA will make its award decisions by June 30, 2000.

**FOR FURTHER INFORMATION CONTACT:**

Your EPA Regional Pesticide Environmental Stewardship Program Coordinator. Contact names for the coordinators are listed under Unit V of this document.

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*Does this Action Apply to Me?*

This action is directed to the public in general. This action may, however, be of interest to eligible applicants for purposes of funding under this grant program to include the 50 States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, any territory or possession of the United States, any agency or instrumentality of a State including State universities, and all Federally recognized Native American tribes. For further information contact the Regional PESP coordinator listed under Unit V.

**II. Availability of FY'00 Funds**

With this publication, EPA is announcing the availability of approximately \$498 thousand in grant/cooperative agreement funds for FY'00. The Agency has delegated grant making authority to the EPA Regional Offices. Regional offices are responsible for the solicitation of interest, the screening of proposals, and the selection of projects. Grant guidance will be provided to all applicants along with any supplementary information the Regions may wish to provide. All applicants must address the criteria listed under Unit IV B. of this document. In addition, applicants may be required to meet any supplemental Regional criteria. Interested applicants should contact their Regional PESP coordinator listed under Unit V of this document for more information.

**III. Eligible Applicants**

In accordance with the Act "... Federal agencies, universities, or others as may be necessary to carry out the purposes of the act, ..." are eligible to receive a grant; however, because of restrictions associated with the funds appropriated for this program, the eligible applicants are limited. Eligible

applicants for purposes of funding under this grant program include the 50 States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, any territory or possession of the United States, any agency or instrumentality of a State including State universities, and all federally recognized Native American Tribes. For convenience, the term "State" in this notice refers to all eligible applicants. Local governments, private universities, private nonprofit entities, private businesses, and individuals are not eligible. The organizations excluded from applying directly are encouraged to work with eligible applicants in developing proposals that include them as participants in the projects. Contact your EPA Regional PESP coordinator for assistance in identifying and contacting eligible applicants. EPA strongly encourages this type of cooperative arrangement.

**IV. Activities and Criteria**

*A. General*

The goal of PESP is to reduce the risks associated with pesticide use in agricultural and non-agricultural settings in the United States. The purpose of the grant program is to support the establishment and expansion of Integrated Pest Management (IPM) as a tool to be used to accomplish the goals of PESP. Projects that address the risk reduction goals of the PESP, pesticide pollution prevention, Integrated Pest Management (IPM), IPM in Schools, children's health issues related to pesticides, or those research methods for documenting the trends toward the adoption of IPM or the reduction of risks associated with pesticide use will receive priority consideration. Other projects will be considered as they complement these goals through public education, training monitoring, demonstrations and studies and other activities. EPA specifically seeks to build State and local IPM capacities or to evaluate the economic feasibility of new IPM approaches at the state level (i.e., innovative approaches and methodologies that use application or other strategies to reduce the risks associated with pesticide use). Funds awarded under the grant program should be used to support the goal of reducing the risk/use of pesticides. State projects might focus on, for example:

- Researching the effectiveness of multimedia communication activities for, including but not limited to: promoting local IPM activities, providing technical assistance to pesticide users; collecting and analyzing data to target outreach and technical

assistance opportunities; developing measures to determine and document progress in pollution prevention; and identifying regulatory and non-regulatory barriers or incentives to pollution prevention.

- Researching methods for establishing IPM as an environmental management priority, establishing prevention goals, developing strategies to meet those goals, and integrating the ethic within both governmental and non-governmental institutions of the State or region.

- Initiating research or other projects that test and support: innovative techniques for reducing pesticide risk or using pesticides in a way to reduce risk, innovative application techniques to reduce worker and environmental exposure, various approaches and methodologies to measure progress towards meeting the goal of 75% implementation of IPM by the year 2000.

A list of projects funded in FY'99 may be obtained from the internet at URL <http://www.epa.gov/opppbpd1/PESP/grants.htm> or from the Regional PESP coordinator listed under Unit V. of this document.

*B. Criteria*

Proposals will be evaluated based on the following criteria:

1. Qualifications and experience of the applicant relative to the proposed project.

- Does the applicant demonstrate experience in the field of the proposed activity?

- Does the applicant have the properly trained staff, facilities, or infrastructure in place to conduct the project?

2. Consistency of applicant's proposed project with the risk reduction goals of the PESP.

3. Provision for a quantitative or qualitative evaluation of the project's success at achieving the stated goals.

- Is the project designed in such a way that it is possible to measure and document the results quantitatively and qualitatively?

- Does the applicant identify the method that will be used to measure and document the project's results quantitatively and qualitatively?

- Will the project assess or suggest a means for measuring progress in reducing risk/use of pesticides in the United States?

4. Likelihood the project can be replicated to benefit other communities or the product may have broad utility to a widespread audience. Can this project, taking into account typical staff and financial restraints, be replicated by

similar organizations in different locations to address the same or similar problem?

#### C. Program Management

Awards of FY'00 funds will be managed through the EPA Regional Offices.

#### D. Contacts

A generic request for proposal may be available on EPA's PESP web site on or before March 22, 2000, at <http://www.epa.gov/opppdp1/PESP/grants.htm>. Interested applicants must also contact the appropriate EPA Regional PESP coordinator listed under Unit V of this document to obtain specific instructions, regional criteria, and guidance for submitting proposals.
