

25, November 2, 4, 9, 12, 16, 17, 19, and 20, and December 3 and 10, 1998; February 4 and 19, March 11, April 4, July 2 and 16, September 28, October 22, November 12, and December 6 and 30, 1999; and January 12, 2000; (2) Renewed Facility Operating License Nos. DPR-53 and DPR-69, with the appendices listed above; (3) the Commission's Safety Evaluation Reports dated March 21, November 16, and December 1999 (NUREG-1705); (4) the licensee's updated final safety analysis report; and (5) the Commission's Final Environmental Impact Statement (NUREG-1437, Supplement 1), dated October 1999. These items are available at the NRC's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC 20555-0001, and can be viewed from the NRC Public Electronic Reading Room at <http://www.nrc.gov/NRC/ADAMS/index.html>.

A copy of the Renewed Facility Operating Licenses, Nos. DPR-53 and DPR-69, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, Attention: Director, Division of Licensing Project Management. Copies of the Safety Evaluation Report (NUREG-1705) and the Final Environmental Impact Statement (NUREG-1437, Supplement 1) may be purchased from the National Technical Information Service, Springfield, Virginia 22161-0002 (telephone number 703-487-4650, <<http://www.ntis.gov/ordernow>>), or the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20402-9328 (telephone number 202-512-4650, <http://www.access.gpo.gov/sh_docs>). All orders should clearly identify the NRC publication number and the requestor's Government Printing Office deposit account, or VISA or Mastercard number and expiration date.

Dated at Rockville, Maryland, this 23rd day of March 2000.

For the Nuclear Regulatory Commission.

David L. Solorio,

Project Manager, License Renewal and Standardization Branch, Division of Regulatory Improvement Programs.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-458]

Entergy Operations, Inc.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Entergy Operations, Inc. (the licensee), to withdraw its October 25, 1999, application, as supplemented by letter dated January 12, 2000, for a proposed amendment to Facility Operating License No. NPF-47 for the River Bend Station, Unit 1, located in West Feliciana Parish, Louisiana.

The proposed amendment would have revised the reactor vessel material surveillance program capsule schedule, defined in Technical Requirements Manual, Table 3.4.11-1, as required by Title 10 of the Code of Federal Regulations Part 50, Appendix H, Section III. The licensee had originally requested that the schedule to remove its first surveillance capsule be changed from 10.4 effective full power years (EFPY) to 13.4 EFPY. The January 12, 2000, letter subsequently requested that the capsule removal schedule be 11.5 EFPY.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment, which was published in the **Federal Register** on December 15, 1999 (64 FR 70083). However, by letter dated March 2, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated October 25, 1999, supplemental letter dated January 12, 2000, and the licensee's letter dated March 2, 2000, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 23rd day of March 2000.

For the Nuclear Regulatory Commission.

Robert J. Fretz,

Project Manager, Section 1, Project Directorate IV & Decommissioning, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

NUCLEAR REGISTER NOTICE

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Nuclear Regulatory Commission.

DATES: Weeks of March 27, April 3, 10, 17, 24, and May 1, 2000.

PLACE: Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

STATUS: Public and Closed.

MATTERS TO BE CONSIDERED:

Week of March 27

Thursday, March 30

8:55 a.m. Affirmation Session (Public Meeting)

a: Petition for Leave to Intervene in Proceeding Regarding Commonwealth Edison Request for Exemption at Zion Facility.

9:00 a.m. Briefing on EEO Program (Public Meeting), (Contact: Irene Little, 301-415-7380).

Friday, March 31

9:30 a.m. Briefing on Risk-Informed Regulation Implementation Plan (Public Meeting) (Contact: Tom King, 301-415-5790).

Week of April 3—Tentative

There are no meetings scheduled for the Week of April 3.

Week of April 10—Tentative

There are no meetings scheduled for the Week of April 10.

Week of April 17—Tentative

There are no meetings scheduled for the Week of April 17.

Week of April 24—Tentative

There are no meetings scheduled for the Week of April 24.

Week of May 1—Tentative

Tuesday, May 2

9:30 a.m. Briefing on Oconee License Renewal (Public Meeting)

Wednesday, May 3

9:25 a.m. Affirmation Session (Public Meeting) (If needed)

9:30 a.m. Briefing on Efforts Regarding Release of Solid Material (Public Meeting)

The schedule for Commission meetings is subject to change on short notice. To verify the status of meetings call (Recording)—(301) 415-1292. Contact person for more information: Bill Hill (301) 415-1661.

The NRC Commission Meeting Schedule can be found on the Internet at:

<http://www.nrc.gov/SECY/smj/schedule.htm>

This notice is distributed by mail to several hundred subscribers; if you no longer wish to receive it, or would like to be added to it, please contact the Office of the Secretary, Attn: Operations Branch, Washington, DC 20555 (301-415-1661). In addition, distribution of this meeting notice over the Internet system is available. If you are interested in receiving this Commission meeting schedule electronically, please send an electronic message to wmmh@nrc.gov or dkw@nrc.gov.

Dated: March 24, 2000.

William M. Hill, Jr.,

SECY Tracking Officer, Office of the Secretary.

NUCLEAR REGULATORY COMMISSION

Relocation of the NRC Public Document Room

AGENCY: Nuclear Regulatory Commission.

ACTION: Notification of relocation of the NRC Public Document Room.

SUMMARY: Notice is hereby given that the Nuclear Regulatory Commission (NRC) is planning to relocate the NRC's Public Document Room (PDR). The PDR is currently located at 2120 L Street, NW, in Washington DC. The NRC plans to relocate the PDR to the NRC's headquarters at the White Flint complex in Rockville, Maryland, by September 30, 2000. The NRC is requesting public comment from users of the PDR on how to best optimize service at this new location.

DATES: The comment period expires April 28, 2000. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: Comments should be sent to David L. Meyer, Chief, Rules and Directives Branch, Office of Administration, Nuclear Regulatory Commission, Mail Stop T-6D59, Washington, DC 20555-00001.

Hand deliver comments to 11545 Rockville Pike, Rockville, MD, between 7:30 a.m. and 4:15 p.m. on Federal workdays.

SUPPLEMENTARY INFORMATION: The Nuclear Regulatory Commission (NRC) is planning to relocate the NRC's Public Document Room (PDR). The PDR is

currently located at 2120 L Street, NW, in Washington DC. The NRC plans to relocate the PDR to the NRC's headquarters at the White Flint complex in Rockville, Maryland, by September 30, 2000.

The NRC's headquarters offices are located at 11555 Rockville Pike, Rockville, Maryland, at the intersection of Rockville Pike and Marinelli Drive. These offices are conveniently located across Marinelli Drive from the White Flint Station on Metro's Red Line and are a short distance from the Capital Beltway (I-495) exits 34 and 35. All reference services currently provided at the Washington, DC, location will be available in the newly renovated space at NRC headquarters. Dining facilities, both inside and outside the headquarters complex, are available. Limited free perimeter parking is available at the rear of the building as well as on nearby streets. The new facility will have handicapped access and parking.

One function of the PDR is to manage the research collection of publicly available paper documents comprising those that pre-date the NRC's Agencywide Documents Access and Management System (ADAMS) (before November 1, 1999) and those ADAMS records that are provided to the PDR in paper. In a recent study of document usage, it was determined that most of the documents requested and copied by the public are less than 18 months old. At the time of the move, the PDR will have over a year's worth of documents in ADAMS, the NRC's full text-database. The NRC intends to retire the majority of the historical paper collection to an off-site storage facility with plans to provide no-cost, quick turn-around retrieval service. Paper copies of the more frequently requested documents will be kept on-site. As now, the 2.5 million documents in the ADAMS Legacy Library will be available for immediate viewing (and copying) on microfiche at the new facility.

Other On-Going PDR Services

The PDR technical reference librarians assist the public in identifying, retrieving, organizing, and evaluating NRC publicly available information and documents, as well as other resources, represented in electronic, microfiche, paper, and other formats. The PDR provides terminals for the public to access documents in the ADAMS, training, and other assistance in installing and using ADAMS. The PDR manages a contract that provides, for a fee, document duplication for the public. There will continue to be an "800" number for callers outside the

Washington, DC, metropolitan area; however, that number will change when the move is finalized.

Although NRC's headquarters office is located in Rockville, Maryland, section 23 of the Atomic Energy Act of 1954, as amended, requires the NRC to maintain an office for the service of process and papers within the District of Columbia. The NRC has used its PDR at its current location in Washington, DC, to meet this requirement. However, in view of the fact that most NRC stakeholders currently serve papers at NRC headquarters in Rockville, Maryland, and that the NRC in the near future will permit electronic filings, the NRC has requested Congress to enact legislation that would eliminate the requirement that the NRC maintain an office in the District of Columbia. In the event that legislation is not enacted, the NRC will identify alternative means to satisfy the requirement in section 23. The NRC will make conforming changes to its regulations to reflect the new location of the agency's PDR.

FOR FURTHER INFORMATION CONTACT:

Thomas E. Smith, Acting Chief of the PDR, Nuclear Regulatory Commission, telephone 202-634-3381, or toll-free 1-800-397-4209.

Dated at Rockville, Maryland, this 22nd day of March 2000.

For the Nuclear Regulatory Commission.

Francine F. Goldberg,

Director, Information Management Division, Office of the Chief Information Officer.

PENSION BENEFIT GUARANTY CORPORATION

Proposed Submission of Information Collection for OMB Review; Comment Request; Qualified Domestic Relations Orders Submitted to the PBGC

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of intention to request extension of OMB approval.

SUMMARY: The Pension Benefit Guaranty Corporation ("PBGC") intends to request that the Office of Management and Budget ("OMB") extend approval, under the Paperwork Reduction Act, of an information collection (OMB control number 1212-0054; expires July 31, 2000) relating to model forms contained in the PBGC booklet, *Divorce Orders & PBGC*. The booklet provides guidance on how to submit a proper qualified domestic relations order (a "QDRO") to the PBGC. This notice informs the
