

factor should be retained based on this increased susceptibility.

Using conservative exposure assumptions, dietary exposure to the most sensitive subpopulation, children (1–6 years old) utilizes 9.9% of the chronic reference dose. Chronic dietary exposure to infants (non-nursing, 1–6 years old) is 2.0% of the chronic RfD. Acute exposure for all infants and children is less than 1.0% of the acute RfD (0.62% of the RfD for the most sensitive subpopulation, children 1–6 years old). Exposure to drinking water for children (1–6 years old) utilizes 31% of the chronic RfD (surface water estimate). Children (1–6 years old) utilize 15% of the chronic RfD (surface water estimate). For acute exposure to drinking water, the worst case estimates (surface water) for infants show that only 0.57% of the aRfD is utilized and children (1–6 years old) utilize 0.27% of the aRfD. These results show that aggregate exposure to residues of clodinafop-propargyl in the diet and drinking water is negligible. Based on the completeness and reliability of the toxicity data and the conservative nature of the exposure assumptions, it is concluded that there is a more than reasonable certainty that no harm will result to infants and children from exposure to residues of clodinafop-propargyl.

F. International Tolerances

There are no Codex Alimentarius Commission (CODEX) maximum residue levels (MRLs) established for residues of clodinafop-propargyl in or on raw agricultural commodities.

ENVIRONMENTAL PROTECTION AGENCY

[OPP–66276; FRL–6552–8]

Notice of Receipt of Requests To Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on October 23, 2000.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave., NW., Washington, DC 20460. Office location for commercial courier delivery, telephone number and e-mail address: Rm. 224, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, telephone number: (703) 305–5761; e-mail: hollins.james@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. Although this action may be of particular interest to persons who produce or use pesticides, the Agency

has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the information in this notice, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select “Laws and Regulations” and then look up the entry for this document under the “**Federal Register**—Environmental Documents.” You can also go directly to the **Federal Register** listings at (<http://www.epa.gov/fedrgstr/>).

2. *In person.* Contact James A. Hollins at 1921 Jefferson Davis Highway, Crystal Mall #2, Rm. 224, Arlington, VA., telephone number (703) 305–5761. Available from 7:30 a.m. to 4:45 p.m., Monday thru Friday, excluding legal holidays.

II. What Action Is the Agency Taking?

This notice announces receipt by the Agency of applications from registrants to cancel some 163 pesticide products registered under section 3 or 24 of FIFRA. These registrations are listed in sequence by registration number (or company number and 24 number) in the following Table 1.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product name	Chemical name
000070–00179	Kill-Ko Seed Treater	O,O-Diethyl phosphorothioate O-(2-isopropyl-6-methyl-4-pyrimidinyl) cis-N-Trichloromethylthio-4-cyclohexene-1,2-dicarboximide
000070–00190	Kill-Ko Fruit Tree Spray	Methoxychlor (2,2-bis(p-methoxyphenyl)-1,1,1-trichloroethane) O,O-Dimethyl phosphorodithioate of diethyl mercaptosuccinate cis-N-Trichloromethylthio-4-cyclohexene-1,2-dicarboximide
000100 OR–98–0021	Supracide 25WP Insecticide-Miticide	O,O-Dimethyl phosphorodithioate, S-ester with 4-(mercaptomethyl)-2-

071949	OMS Investments, Inc., c/o Delaware Corporate Management, 1105 N. Market Street, Wilmington, DE 19899.

III. What is the Agency's Authority for Taking This Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before October 23, 2000. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received by the Agency. This policy is in accordance with the Agency's statement of policy as prescribed in **Federal Register** (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exception to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions

on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

List of Subjects

Environmental protection, Pesticides and pests, Product registrations.

Dated: April 5, 2000.

Richard D. Schmitt,

Acting Director, Information Resources Services Division, Office of Pesticide Programs.
